

association of the
luxembourg fund industry

LUXEMBOURG PRIVATE EQUITY AND VENTURE CAPITAL

Why Luxembourg ?

- Political, legal and fiscal stability
- State-of-the-art legal and regulatory environment
- High regulatory and investor protection standards
- Solid financial sector supervision
- Rapid and innovative responses to new trends
- Highly international, in terms of origin of financial institutions and fund initiators, clients, population and workforce
- Diversified offer of financial products and services
- Europe's number one investment fund centre
- Unique concentration of investment fund industry experts in all aspects of product development, administration and distribution
- Unrivalled know-how in cross-border investment funds business
- Top-notch market infrastructure for securities trading, clearing and settlement

This brochure purports to provide general background information on the set up as well as the servicing of private equity and venture capital investment vehicles in the Grand Duchy of Luxembourg.

In terms of set up of private equity and venture capital investment vehicles Luxembourg today offers a large variety of structuring opportunities, such as the investment company in risk capital (SICAR), the specialised investment fund (SIF), the reserved alternative investment fund (RAIF), or any commercial company in particular an S.C.S. or S.C.Sp. qualifying as an AIF and/or a *société de participations financières* (SOPARFI), as the case may be. In addition, Luxembourg commercial companies can also be set up as venture capital vehicle based on the European Regulation (EU) No. 345/2013, the “EuVECA”.

Luxembourg based service providers have build up teams experienced and specialised in servicing the above mentioned private equity and venture capital investment vehicles. Against this background, they are today able to offer a wide range of customised services in fund and acquisition structuring, transaction advisory, fund administration, depositary and audit services dedicated to private equity and venture capital investment vehicles.

1. Luxembourg – a conducive environment for private equity and venture capital

Choosing the right location for the set-up of private equity or venture capital operations, and in particular private equity and venture capital investment vehicles, requires to take into consideration many different factors.

The following features are Luxembourg's strengths – the combination of these strengths makes Luxembourg a very attractive location for private equity as well as venture capital initiators.

Political & economic stability

The political environment in Luxembourg is very business-friendly and conducive to welcoming decision-makers and entrepreneurs. Attracting international players is considered paramount in building an efficient business framework and economic growth, and has enabled Luxembourg to establish an innovative and diverse business community.

An illustration is the special tax regime for highly skilled workers aimed at attracting a specialised workforce in areas such as private equity and venture capital.

A stable and rewarding tax environment

The tax framework is considered among the most stable and rewarding in Europe for companies, their shareholders and their employees. This is a key component of Luxembourg's development. The tax authorities lead a constructive dialogue with

taxpayers, have a business friendly attitude and the quick and pragmatic approach to the requirements of international investors. Luxembourg offers a flexible and attractive tax regimes in full compliance with applicable EU directives and regulations.

Business-friendly environment

Luxembourg was one of the pioneers to implement the AIFMD and has largely leveraged on its long-standing and recognised UCITS experience to adapt the alternative investment fund industry to the new regulatory standards and marketing or placement regimes.

Although the initial objective of the G20 and the EU Commission was principally aimed at regulating the alternative investment industry in order to control and avoid systemic risk, the AIFMD also entails a European marketing passport for AIFM. Once authorised in an EU Member country, these AIFMs can market the AIFs they manage to professional investors in all other EU Member countries. In the context

of UCITS, Luxembourg has taken advantage of the opportunities given by the passport regime and has, on that basis, become the leading jurisdiction in the world for retail cross-border distribution.

With the introduction of the AIFMD, Luxembourg based AIFs have due to the AIFMD passporting possibilities seen a similar boost in distribution as it is the case for UCITS.

A considerable number of Luxembourg UCITS management companies have also obtained approval to act as AIFMs, allowing them to manage both UCITS and AIF.

Players on the Luxembourg Private Equity and Venture Capital scene

■ GPs/Private Equity/ Venture Capital houses or their subsidiaries

Whilst historically a local presence in Luxembourg was limited mostly to smaller and/or emerging GPs, many large international houses have set up and conducted business out of Luxembourg since the middle of the last decade with a considerable and growing local substance.

■ Private equity and venture capital administrators

These service providers offer domiciliary, accounting, trust services and, since the introduction of AIFMD in 2013, depositary services for closed-ended funds investing in private equity and venture capital to the extent required.

They provide offices to conduct business from, as well as a range of additional services to private equity and venture capital houses that are conducting business out of Luxembourg. Luxembourg is home to both administrators specialised in private equity or venture capital as well as many more generalist administrators that are often part of larger financial services groups. Governance standards of private equity and venture capital investment vehicles set up in Luxembourg have undergone a significant evolution with enhanced governance having been made a priority by the supervisory authority and industry stakeholders themselves. Today, there is a high number of skilled independent directors available to serve private equity as well as venture capital investment vehicles.

2. Private equity and venture capital in Luxembourg

Luxembourg offers a platform of services and structuring opportunities to the private equity as well as the venture capital industry. Products include competitive structures for setting-up private equity and venture capital funds, such as the investment company in risk capital (SICAR) or the specialised investment fund (SIF). Luxembourg has thus emerged as a prime jurisdiction for the structuring of private equity and venture capital acquisitions and financings.

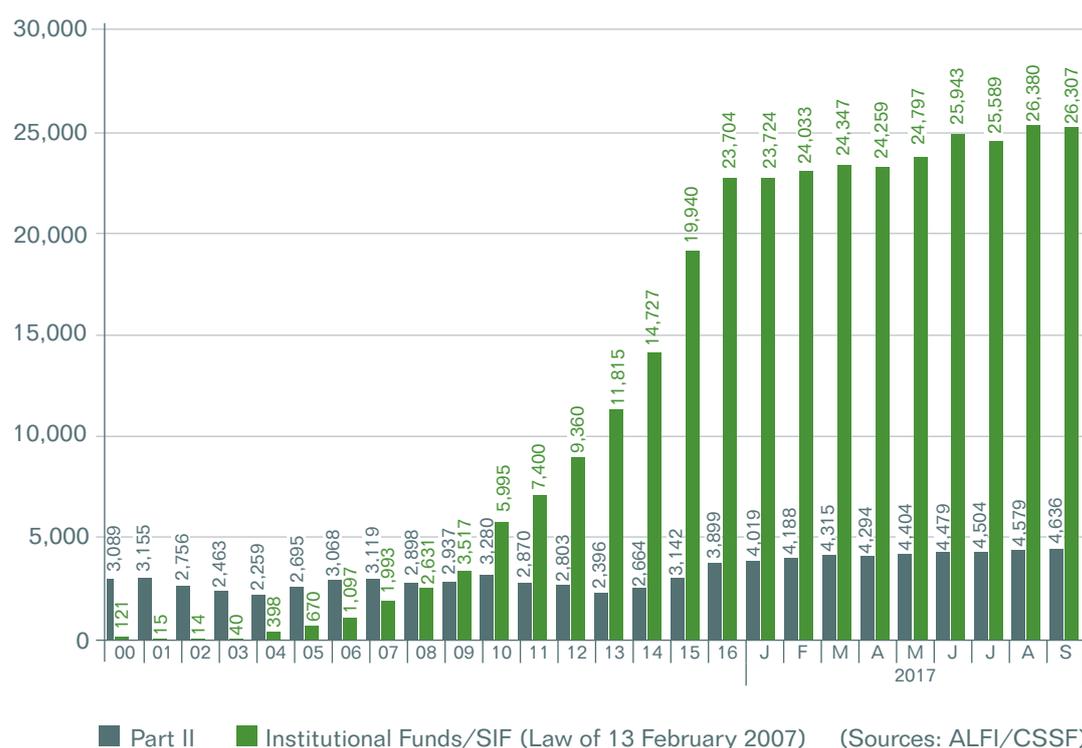

Besides the SIF and the SICAR, Luxembourg has built up its market share in private equity and venture capital funds thanks to its non-regulated special purpose companies (such as the SOPARFI – the financial participation company) which are used for private equity/venture capital acquisitions and financings alike. A SOPARFI is typically used for holding and financing private equity and venture capital investments. It may thus equally serve as an SPV, a joint venture vehicle or more rarely a fund vehicle itself (in which case it may qualify as AIF). Other types of commercial companies, such as the S.C.A., the S.C.S. and the S.C.Sp., qualifying as AIF, are frequently

used to structure private equity and venture capital funds.

The EuVECA Regulation (EU) No. 345/2013) provides harmonised requirements for qualified venture capital funds that intend to invest at least 70% of their aggregate capital contributions and uncalled committed capital in assets that are ‘qualifying investments’. EuVECA funds can be internally or externally managed, and managers marketing funds to professional investors benefit from an EU-wide distribution passport.

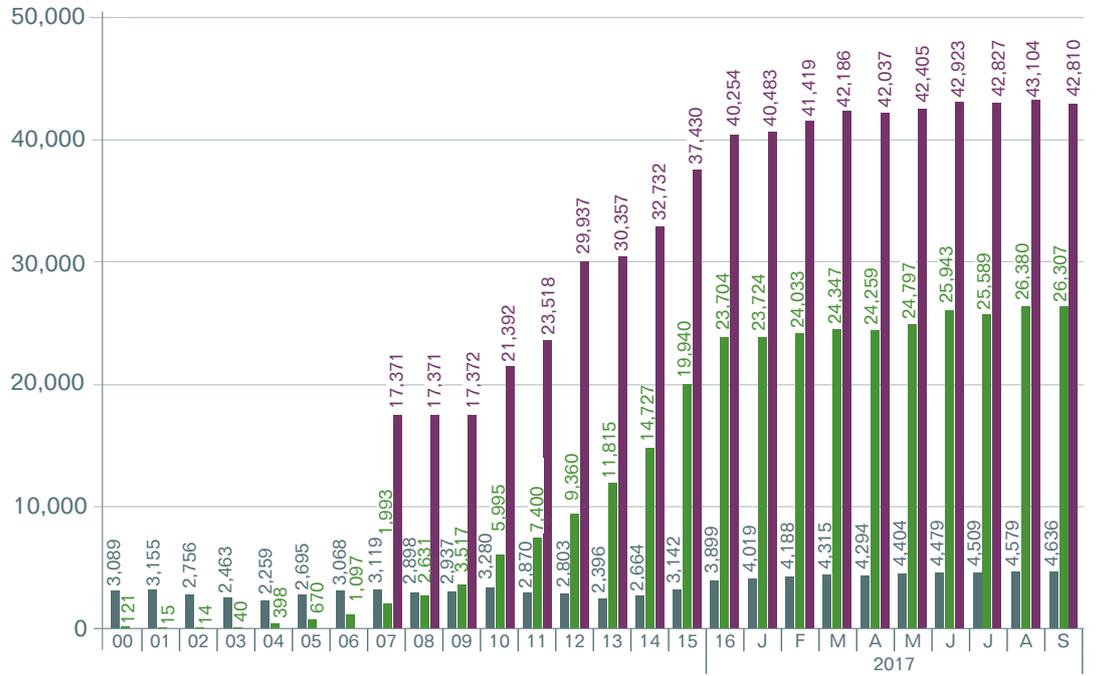

The RAIF (Reserved Alternative Investment Fund) structure, which became available in the summer of 2016, allows private equity and venture capital fund initiators to set up Luxembourg-domiciled funds that are not subject to regulatory approval by the Luxembourg supervisory authority, the *Commission de surveillance du secteur financier*, the “CSSF”). This option permits the achievement of a significantly enhanced time-to-market for new fund launches. However a RAIF must be managed by an authorized AIFM.

2. Private equity in Luxembourg

2.1. Typical Luxembourg Private Equity and venture capital structures

SICARs, RAIFs, SIFs, EuVECAs and SOPARFIs can take a large variety of legal forms available under Luxembourg law and thus accommodate any set of tax and governance requirements – both stemming from the investors’ as well as the initiators’ perspective – that typically arise in the context of setting up private equity or venture capital investment vehicles as well as in special situations (e.g. master-feeder structures, acquisition structures etc.).

The table below compares the five most commonly used available structures on key criteria when choosing the right form for a private equity or venture capital investment vehicle.

Besides the existing S.C.S., the AIFM Law introduced a new legal form, the Special Limited Partnership (SLP or in French the *Société en Commandite Spéciale*, S.C.Sp.) a limited partnership without legal personality. This legal form is comparable to the common English law limited partnership and can also be set up under a specific regulatory wrapper regime such as the SICAR, SIF or EuVECA regimes, or now also under the RAIF regime.

Since August 2016, the Simplified limited company (in French the *Société par Actions Simplifiée*, S.A.S.) has offered an alternative legal form that can be used for any of the regulatory wrappers (SICARs, RAIFs, SIFs, EuVECAs and also SOPARFIs).

Flexibility	Diversification/investment limits
<ul style="list-style-type: none"> ■ SIFs and RAIFs are eligible for all asset classes. ■ SICARs are exclusively eligible for risk capital investments. ■ EuVECAs require an investment of the majority of their assets in venture capital investments. ■ SOPARFIs benefit from flexible provisions of Luxembourg corporate law and offer flexibility in structuring of debt and equity. 	<ul style="list-style-type: none"> ■ SIFs and RAIFs as well as EuVECAs must invest in a diversified asset portfolio and/or are subject to certain investment limits. ■ SICARs are not subject to diversification requirements ■ SOPARFIs have no constraints in terms of investment policy
Structuring	Regulation
<ul style="list-style-type: none"> ■ SIFs, RAIFs, SICARs, EuVECAs and SOPARFIs may be organised using different legal forms available under Luxembourg corporate law (private limited liability company (S.à r.l.), public limited liability company (S.A.), corporate partnership limited by shares (S.C.A.), limited partnership (S.C.S.) special limited partnership (S.C.Sp.) etc.). ■ SICARs, SIFs, EuVECAs and RAIFs may in principle be organised in a fiscally neutral manner (to the extent due to their legal form they qualify as fiscally transparent). ■ SIFs, RAIFs, SICARs, EuVECAs and SOPARFIs may in principle benefit from all or part of Luxembourg’s double tax treaty network (to the extent due to their legal form they are not fiscally transparent). 	<ul style="list-style-type: none"> ■ SICARs, EuVECAs and SIFs are subject to authorisation before taking up their activity and are subject to ongoing supervision. ■ RAIFs are not subject to any prior authorisation but remain subject to indirect supervision via their authorised AIFM. ■ SICARs, SIFs, EuVECAs and RAIFs are subject to certain minimum disclosure obligations. ■ SOPARFIs are not subject to regulation (though they may qualify as an AIF and thus may be subject to indirect supervision and certain minimum disclosure obligations via their AIFM as well).

2.2. General Partners/ Management

In order to set up a corporate partnership limited by shares (*Société en Commandite par Actions* or S.C.A.), a common limited partnership (*Société en Commandite Simple* or S.C.S. or C.L.P.) or a Special Limited Partnership (*Société en Commandite Spéciale* or S.C.Sp. or SLP), at least one general partner as well as at least one limited partner is required. The management of the S.C.A., S.C.S. or S.C.Sp. can solely be entrusted to this one (or more) GP(s), itself managed by a single manager or a board of managers. Limited partners may also be entrusted with limited management functions.

The GP will always be personally liable for the partnership's debts and obligations which cannot be satisfied out of the partnership's assets. In order to limit this joint and several liability, the GP will typically be organised as a private limited liability company (S.à r.l.) or a public limited liability company (S.A.).

The GP may delegate some of its powers to agents that it may in principle freely determine. For example, the GP may nominate an AIFM an investment advisor as well as all service providers in Luxembourg (e.g. central administration and depositary). It may furthermore organise various forums or committees to assist it in various functions.

SICARs, SIFs, EuVECAs and RAIFs may also be set up in the form of an S.A. or S.à r.l., either with a one-tier management structure, consisting of a board of directors or a two-tier management structure comprised of a management board and a supervisory board.

2.3. Substance and supporting industry

The growing presence of private equity and venture capital business in Luxembourg has prompted both GPs and the services industry to develop middle office activities locally. A significant number of private equity and venture capital houses have created considerable proprietary infrastructure in Luxembourg.

Middle office services are focused on compliance, risk management and corporate governance and are used to dealing with highly complex structures, financial instruments and the active participation in the ultimate investee companies held by the entities organised and operated in Luxembourg.

The RAIF law provides that every RAIF must be managed by an authorised AIFM, which may be established in Luxembourg or in another EEA country.

The AIFMD and its implementing regulations (Level 2) impose requirements on managers of (or self-managed) SIFs, RAIFs, SICARs and unregulated vehicles captured by the AIFMD. These requirements consist of inter alia retaining eligible conducting officers, the enhancement of the central administration and substance of the private equity or venture capital structure, the necessity to introduce rules or policies on risk management, compliance, internal audit, transparency, remuneration and conflict of interest situations. The AIFMD, the Level 2 measures, the AIFM Law and CSSF circulars and regulations detail the level of functions that may be outsourced and if so, to which degree. Comparable organisational requirements are stipulated in detail by the EuVECA Regulation (EU) No. 345/2013.

2. Private equity in Luxembourg

2.4. Service providers

2.4.1. Administration

The Luxembourg private equity and venture capital fund administration sector basically falls into two categories: large international administrators servicing all fund ranges, including private equity and venture capital funds, as well as independent local and international specialist administrators.

Today, the vast majority of private equity and venture capital administrators offer the full range of central administration services, including domiciliation, administration, accounting, tax filing and company secretarial services to AIFs including their controlled SPVs located in Luxembourg or abroad.

2.4.2. Depositary services

Depositary services within the scope of the AIFM Law for certain private equity and venture capital structures, i.e. in the form of a SIF, SICAR, RAIF or any AIF managed by an AIFM comprise the following two components: the safekeeping and the monitoring of the structure's assets.

It is worth noting that EuVECA do not require the appointment of a depositary. However, similar to the aforementioned duties of safekeeping and monitoring of a depositary under the AIFM Law, EuVECA do require their auditor to control at the time of their annual audit, that money and assets of the EuVECA are indeed held for its benefit.

The depositary services for the aforementioned vehicles may in principle only be performed by credit institutions. The AIFM Law permits certain closed-ended AIFs to appoint as depositary non-banking institutions or investment firms provided the relevant AIF and assimilated structures generally do not invest in assets that must be held in custody (i.e. financial instruments).

This depositary function is only open to qualifying investment firms under Luxembourg

law serving as professional depositaries of assets other than financial instruments. In such case, a credit institution needs to be appointed for the handling the cash transactions.

2.4.2.1. Monitoring function

As private equity or venture capital fund (to the extent the latter does not qualify as a EuVECA) assets are usually not physically safeguarded by the depositary itself, the depositary will have to focus on its oversight duties. In this case, the scope of the supervision and oversight function of the depositary implies:

- Handling of the legal documentation related to the transactions carried out;
- Compliance monitoring of the cash and securities flows linked to transactions;
- Control of any single transaction including settlement;
- Implementation of an internal verification check list and escalation procedure;
- Monitoring of subscriptions and redemptions;
- Valuation duties.

2.4.2.2. Safekeeping of assets

Luxembourg based depositaries are very well positioned to perform these legal duties. The know-how of Luxembourg-based depositary institutions in providing a full range of customised services for private equity and venture capital investment vehicles is nowadays widely recognised.

The services cover the whole of the investment and divestment processes, such as:

- Follow-up of board approval process as well as collection of underlying agreements and documentation related to the transactions;
- Supervision and monitoring of investments and divestments;
- Asset registration in the name of the vehicle under the supervision of the depositary;
- Compliance checks with the investment policy as described in the information memorandum/offering memorandum/issuing document or other applicable documentation.

In addition, the depositary, to the extent it is also entrusted with the role of a paying agent or in cooperation with the transfer agent, may also offer amongst others, the following services:

- Processing of payments linked to the underlying investments;
- Collection of interest income and dividends from underlying investments;
- Processing of corporate events on underlying investments;
- Liaison with local correspondents, lawyers, notaries and others service providers;
- Recording of documentation and data back-up;
- Collateral management services;
- Tax reclaim management services (withholding tax treaty);
- Collection of subscription proceeds;
- Payment of redemption amounts;
- Execution of dividend payments to investors.

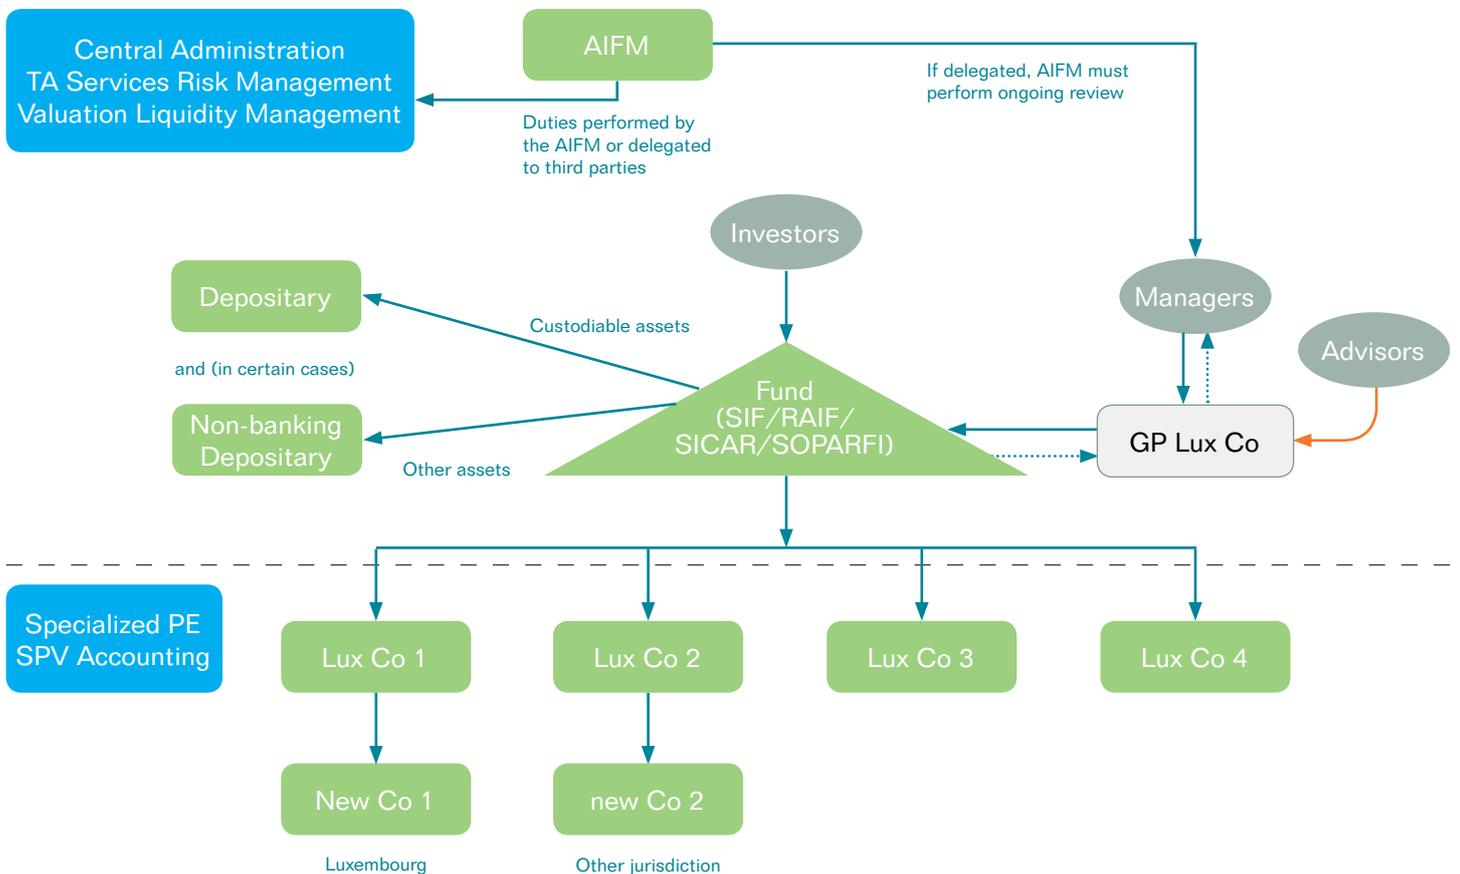

2.4.3. Banking services

Luxembourg banks offer cash management services, treasury, foreign exchange management, bridge financing and management of escrow accounts to their private equity and venture capital clients.

2.4.4. Legal, tax and audit services

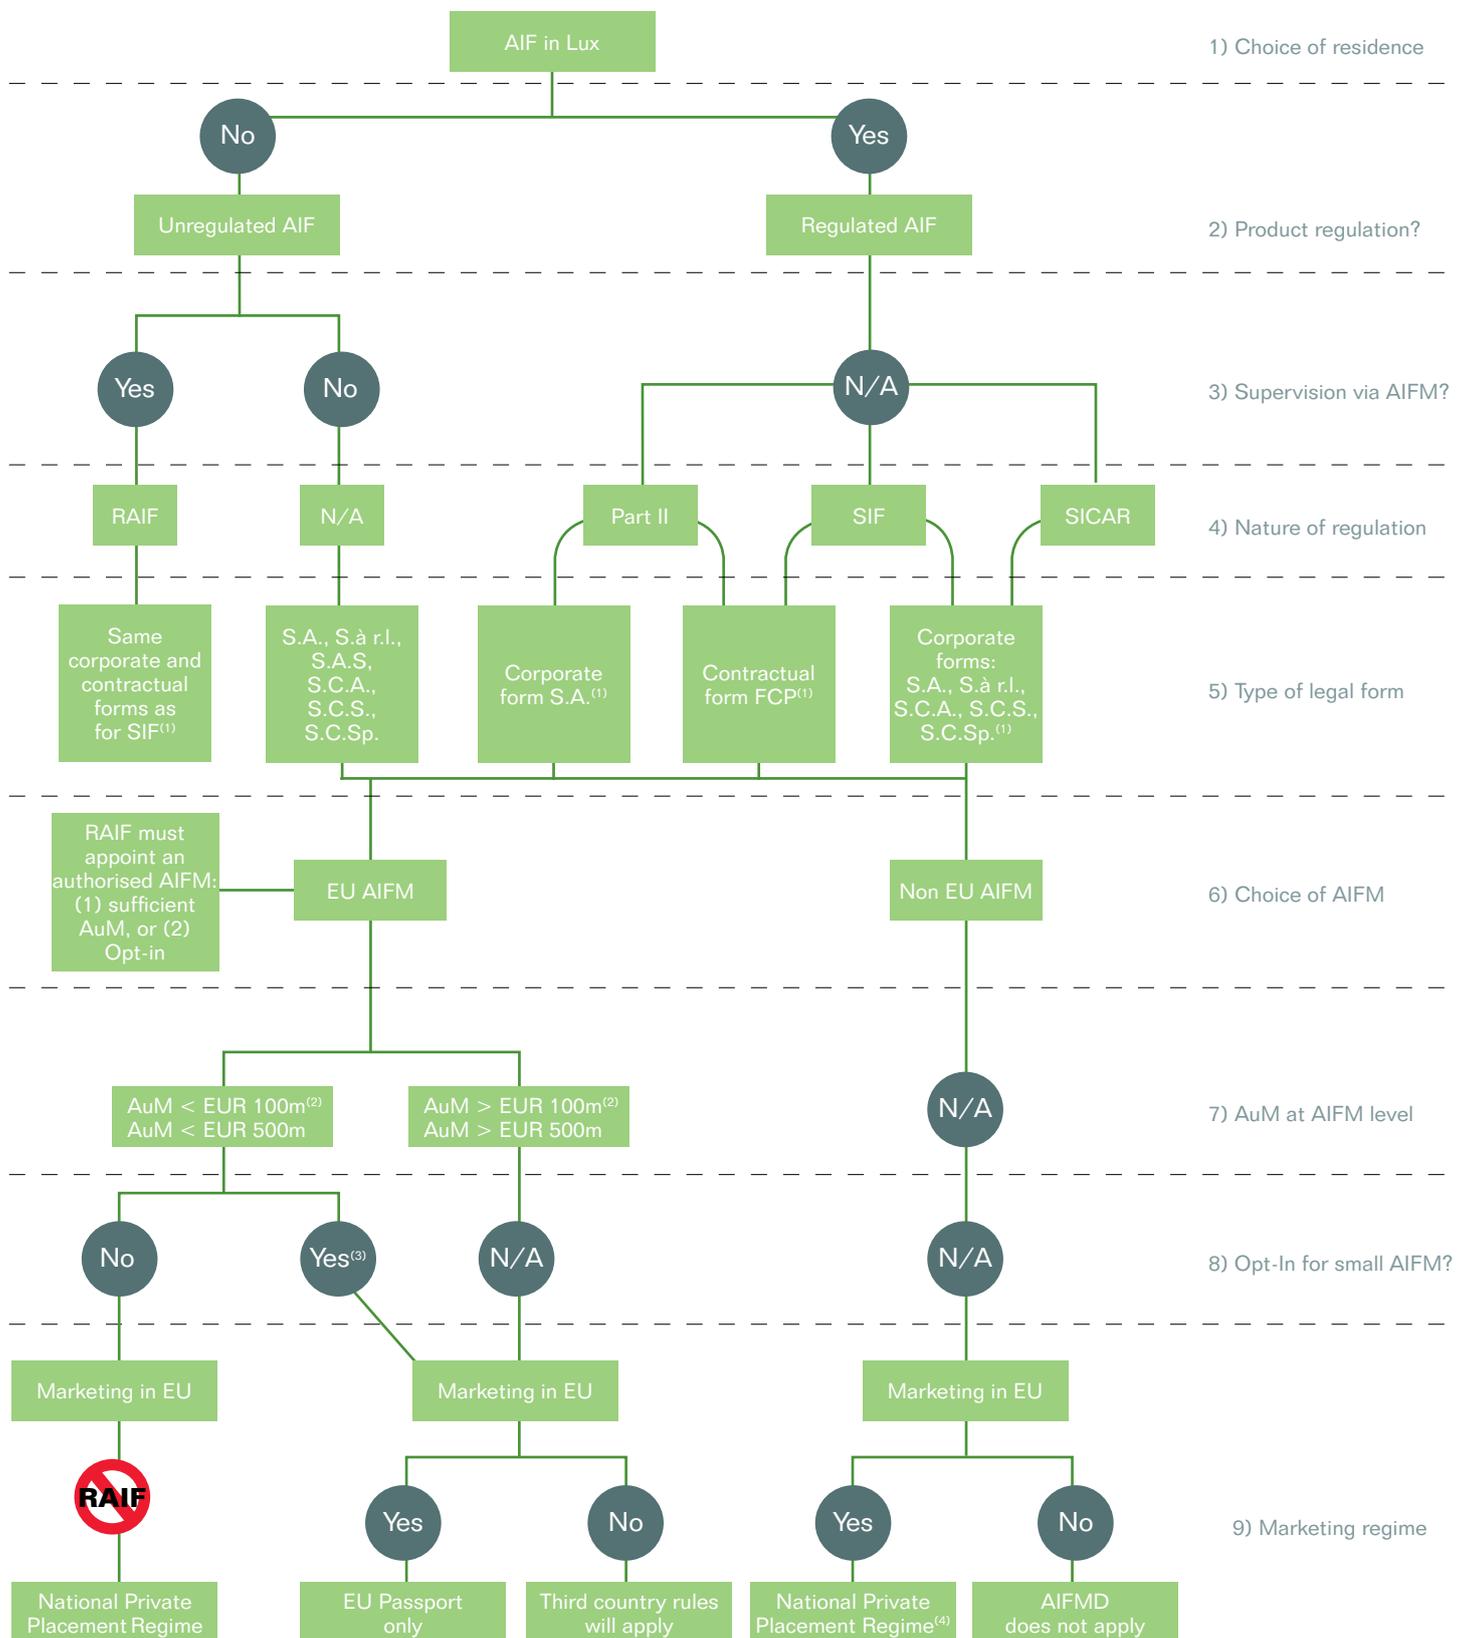

Luxembourg avails itself of significant expertise in legal and tax matters through numerous local and international law firms, tax advisors and audit firms experienced in structuring and servicing private equity and venture capital investment vehicles.

Example of a typical PE or VC structure SICAR and SOPARFI

3. Private equity and venture capital – legal framework

3.1. Schematic representation of principal choices to be operated when implementing a private equity or venture capital structure

⁽¹⁾ Other legal forms may be envisaged (for available legal forms, please refer to Appendix 1).

⁽⁴⁾ 2015-2018: Dual Marketing regime.

- NPPR + AIFMD on transparency, reporting and controlling entities and partial 3rd country requirements
- EU Passport: accessible upon fulfillment of all AIFMD conditions.

3.2. Luxembourg private equity and venture capital unregulated and regulated structures

Private Equity and venture capital vehicles in Luxembourg may (i) either be any normal commercial companies (as further detailed under 3.2.1 below), i.e. structures, which are not supervised at all or at least indirectly supervised by an appointed AIFM or (ii) investment structures that are (potentially in addition to the appointed AIFM) supervised by the Luxembourg *Commission de surveillance du secteur financier* (“CSSF”) and therefore regulated structures (as further detailed under 3.2.2).

The specific (legal) features of all of these structures are further explained in 3.3 below.

All of the aforementioned structures may – depending on their characteristics – qualify as an AIF under the Luxembourg implementation of the AIFMD, i.e. the Luxembourg law on alternative investment fund managers (“AIFM”)⁽¹⁾ of 12 July 2013, as amended (the “AIFM Law”). They would then potentially need to appoint an AIFM for the performance of the respective AIF’s portfolio and risk management services within the meaning of the AIFM Law.

3.2.1. Standard commercial companies

Any standard commercial company under the Luxembourg law of 10 August 1915 on commercial companies (the “1915 Law”) can be used as a private equity or venture capital investment vehicle in Luxembourg.

- These vehicles may either be intermediate holding vehicles (such as an S.à r.l. qualifying as SOPARFI, an S.C.S. or S.C.Sp.) for an entity located abroad (typically a non-European private equity or venture capital fund) or
- be themselves the investment vehicle for the end investors/beneficial owners of the structure (i.e. an S.C.S., S.C.Sp. or any other commercial company qualifying as a RAIF).

The SOPARFI

To the extent that the corporate object of that vehicle is limited to the holding of participations in other (asset holding) companies (be it in Luxembourg or abroad) the most common non-regulated private equity or venture capital investment structure in Luxembourg is the SOPARFI. SOPARFIs are ordinary commercial companies (in principle able to take any corporate form available under the 1915 Law, while in practice this often will be a private limited company, i.e. a *société à responsabilité limitée*, S.à r.l. or a simplified limited company, i.e. a *société par actions simplifiée*, S.A.S.) governed by the 1915 Law.

As an ordinary company, the SOPARFI is not subject to any risk-spreading requirements and may in principle invest in any asset class. SOPARFIs are used to invest and manage financial participations in Luxembourg or foreign companies. SOPARFIs can also undertake commercial activities which are directly or indirectly connected to the management of their holdings including the debt servicing of their acquisitions.

S.C.S. and S.C.Sp.

The Luxembourg AIFM Law, revamped and updated the legal framework for limited partnerships under the 1915 Law, i.e. the *société en commandite simple* (S.C.S.). In addition, the AIFM Law also introduced another form of limited partnership under Luxembourg law, namely the *société en commandite spéciale* (S.C.Sp.), which, unlike the S.C.S., does not have legal personality itself. Both vehicles have increasingly been used for structuring private equity or venture capital investments. Records of the Luxembourg trade register show that by September 2017, 2184 S.C.S. or S.C.Sp. have been set up since its introduction in July 2013, seemingly substituting the former vehicle of choice, the S.à r.l. While the principal reasons for choosing the legal form of a

⁽¹⁾ According to article 1 (39) of the AIFM law, an AIF is any collective investment undertaking, including investment compartments thereof, which: (a) raise capital from a number of investors, with a view to investing it in accordance with a defined investment policy for the benefit of those investors; and (b) do not require authorisation pursuant to Article 5 of Directive 2009/65/EC;

3. Private equity and venture capital – legal framework

Luxembourg private equity or venture capital investment vehicle may often be driven by considerations of applicable foreign (tax) law, the increased structuring flexibility of the S.C.S. or the S.C.Sp. is another decisive aspect. The Limited Partnership Agreement will fix the company's operating rules and its tax-transparent status (under Luxembourg tax law and subject to appropriate structuring under applicable foreign tax law, to the extent applicable) has added to its increased popularity.

Reserved alternative investment fund - RAIF

On 1 August 2016, the law of 23 July 2016 on reserved alternative investment funds ("RAIFs") entered into force (the "RAIF Law"). It introduced a new type of Luxembourg investment vehicle that is reserved to Luxembourg AIFs managed by an authorised external AIFM within the meaning of the AIFM Law.

To a large extent, the RAIF vehicle offers similar structuring flexibilities, i.e. the launch of sub-funds, when set up as an umbrella-fund as Luxembourg SIFs.

However, in contrast to SIFs, RAIFs are not subject to supervision of the Luxembourg supervisory authority of the financial sector (the CSSF).

Moreover, RAIFs will always qualify as AIFs and will therefore, amongst others, be required to comply with the specific AIFM Law requirements such as (i) the appointment of a depositary, (ii) the appointment of an approved statutory auditor, (iii) minimum content requirements for annual report, (iv) valuation of the RAIF's assets, and (v) investment and leverage rules regarding certain type of assets. However, in exchange for complying with all the conditions laid down in the AIFM Law, RAIFs benefit from the AIFMD passport in order to be marketed to professional investors (and retail investors if permitted by the relevant Member States) in the EU.

3.2.2. Directly regulated or indirectly supervised structures

The CSSF regulates (i) SICARs, (ii) SIFs and (iii) EuVECAs. SIFs are regulated under the provisions of the amended law of 13 February 2007 on specialised investment funds (the "SIF Law") while SICARs are regulated under the provisions of the amended law of 15 June 2004 (the "SICAR Law") on investment companies for risk capital investment. Both SICARs and SIFs are registered on official lists maintained by and accessible on the website of the CSSF. SIFs and SICARs would typically also qualify as AIFs under the AIFM Law.

Amidst an international regulatory environment seeking to increase transparency and oversight the SICAR and the SIF are tried-and-tested regulated private equity and venture capital structures. The legal framework applicable to SICARs and SIFs offers a combination of a flexible and accessible regulatory infrastructure with strong investor protection features. They can only be subscribed to by "well-informed" investors (see the glossary for a more detailed definition).

SICAR

SICARs are investment vehicles designed specifically for investment in risk capital, as defined by CSSF circular 06/241. SICARs allow direct or indirect contributions of assets to be made to entities in view of their launch, development or listing on a stock exchange.

SIF

The SIF regime was created in 2007 in order to clearly establish Luxembourg as an AIF domicile further accommodating all alternative asset classes and hedge funds, real estate funds and private equity funds in particular. SIFs are not subject to any eligibility requirements in terms of their investments. They are however required to diversify their investments as further set out in a CSSF circular, i.e. CSSF circular 07/309.

EuVECA

The EuVECA Regulation (EU) No. 345/2013 has been applicable since 22 July 2013 and is currently in the process of being revised. It provides a (voluntary) common framework and label for venture capital funds at EU level, referred to as the “EuVECA”-label. In order to benefit from the label, EuVECA funds are subject to specific requirements regarding their investment policy. They are only allowed to invest in certain types of assets. Accordingly, only investments in equity instruments issued by or loans granted to qualifying portfolio undertakings, meaning undertakings that are at the time of the first investment by the fund in that undertaking not admitted to trading on a regulated market or multilateral trading facility, and that employ up to 499 persons, or SMEs which are listed on SME growth markets will be allowed under the revised EuVECA Regulation. EuVECA funds are also subject to specific rules in respect of fund portfolio composition, investment techniques and own funds. In particular, these funds must intend to invest at least 70% of their aggregate capital contributions and uncalled committed capital in assets that are qualifying investments and, as a consequence, do not use more than 30% for the acquisition of assets other than qualifying investments. One of the defining features of the EuVECA regime is that it does not require the appointment of a depositary.

The EuVECA Regulation applies to EU managers that are subject to registration with the competent authorities of their home Member State in accordance with the AIFMD and manage qualifying venture capital funds

with total AuM of less than EUR 500 million. Following the aforementioned revision, the use of the EuVECA label will also be open to above-threshold AIFMs which continue to be subject to the requirements of the AIFMD while complying with certain provisions of the EuVECA Regulation (those on eligible investments, targeted investors and information requirements).

EuVECA managers can also manage and market AIFs which are not EuVECA funds. However, the EuVECA passport does not apply to these funds.

3.4. Structuring by means of Luxembourg vehicles

The following examples illustrate how private equity (“PE”) or venture capital (“VC”) investments may be structured using a variety of Luxembourg vehicles, including options to locate PE or VC funds themselves in Luxembourg.

Luxembourg PE or VC investment structures downstream of a PE or VC fund (residing in Luxembourg or not) typically consist of either a SOPARFI, an unregulated S.C.S./ S.C.Sp, a SICAR, RAIF or SIF or of a combination of the latter two with one or more SOPARFIs.

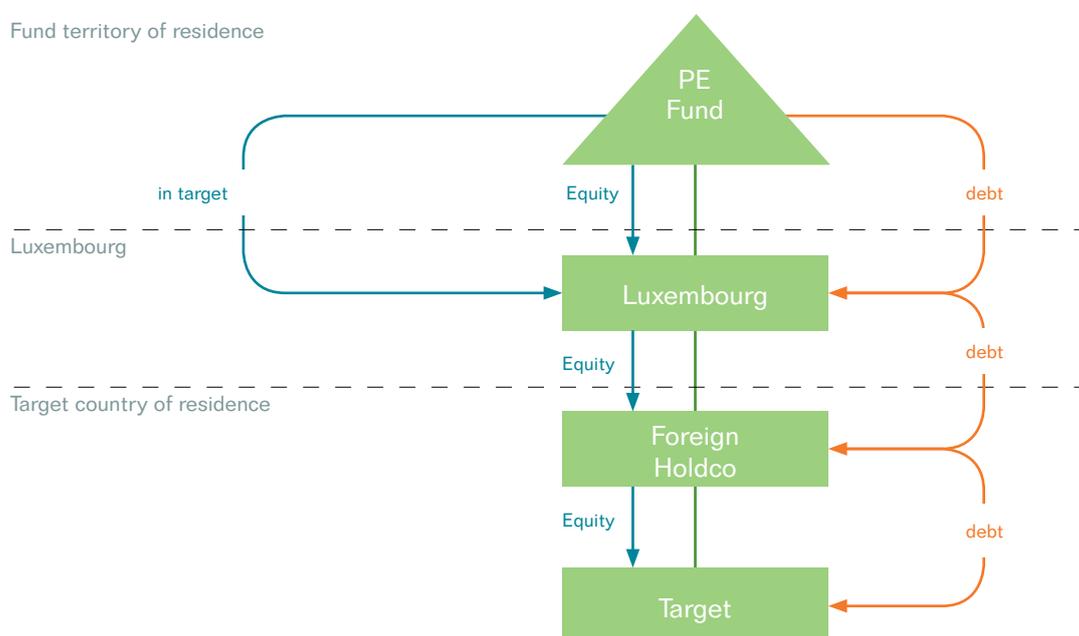

In the case of an FCP-SIF or FCP-RAIF, S.C.S. and S.C.Sp. qualifying as a tax transparent structure the use of intermediate companies

may (depending on the applicable tax regime to the investors and/or the investments of the relevant vehicle) prove useful to benefit from double tax treaties and EU directives that only companies can benefit from, unlike an FCP, S.C.S. or S.C.Sp.

Investors can also invest either directly into the Luxembourg investment vehicle or fund or indirectly via an additional Luxembourg-based or non-Luxembourg-based feeder (fund) vehicle.

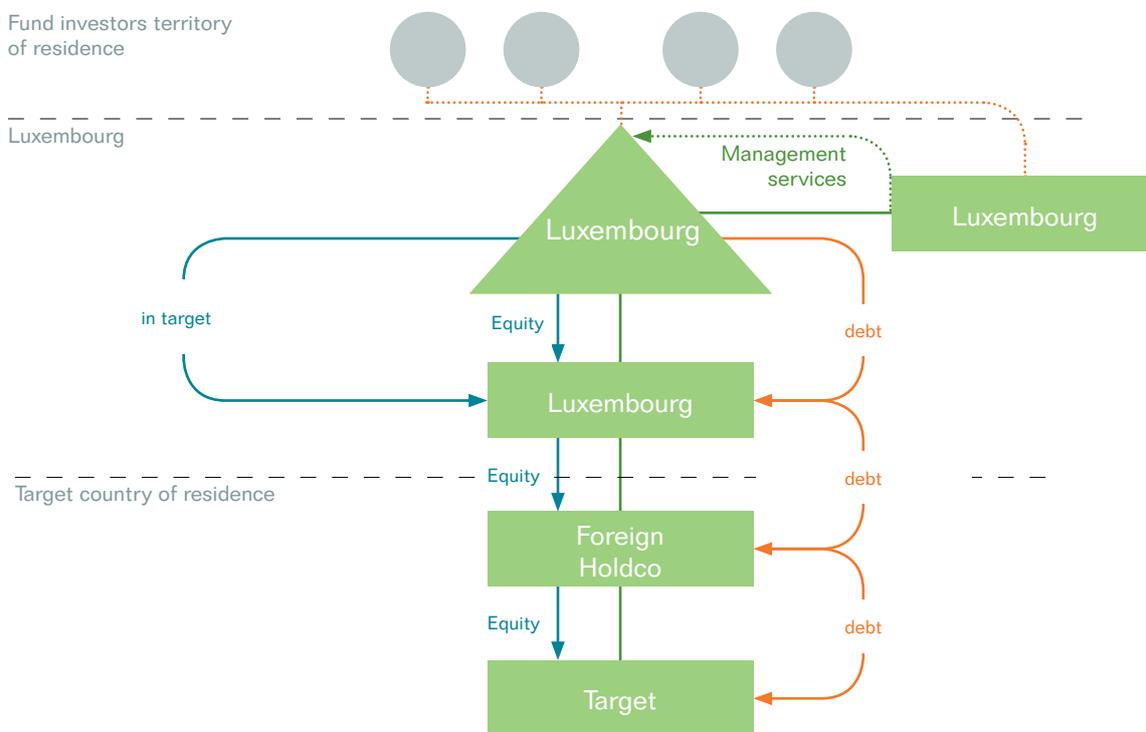

The following charts are examples of typical Luxembourg PE or VC investment structures using investment vehicles residing in Luxembourg or not:

Example 1: traditional investment via a Luxembourg SOPARFI

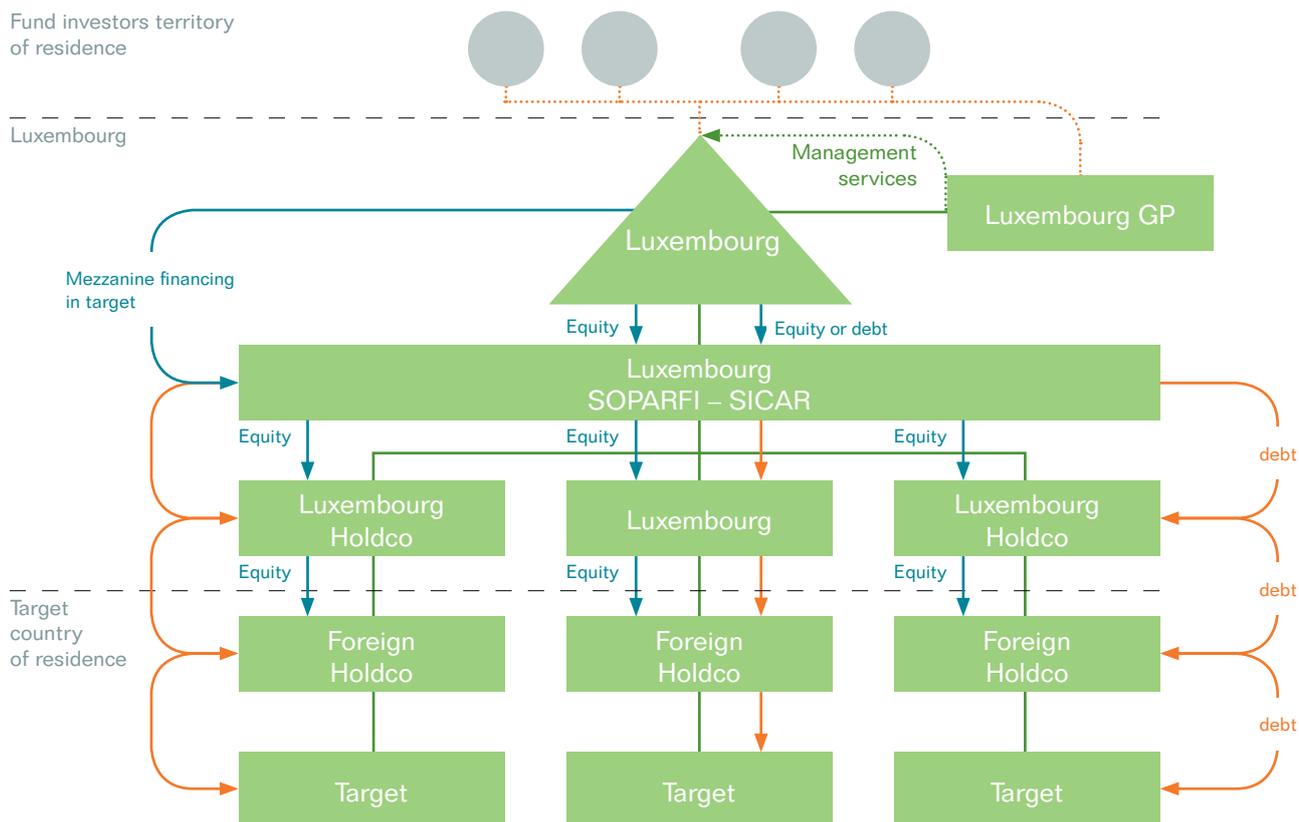

3. Private equity and venture capital – legal framework

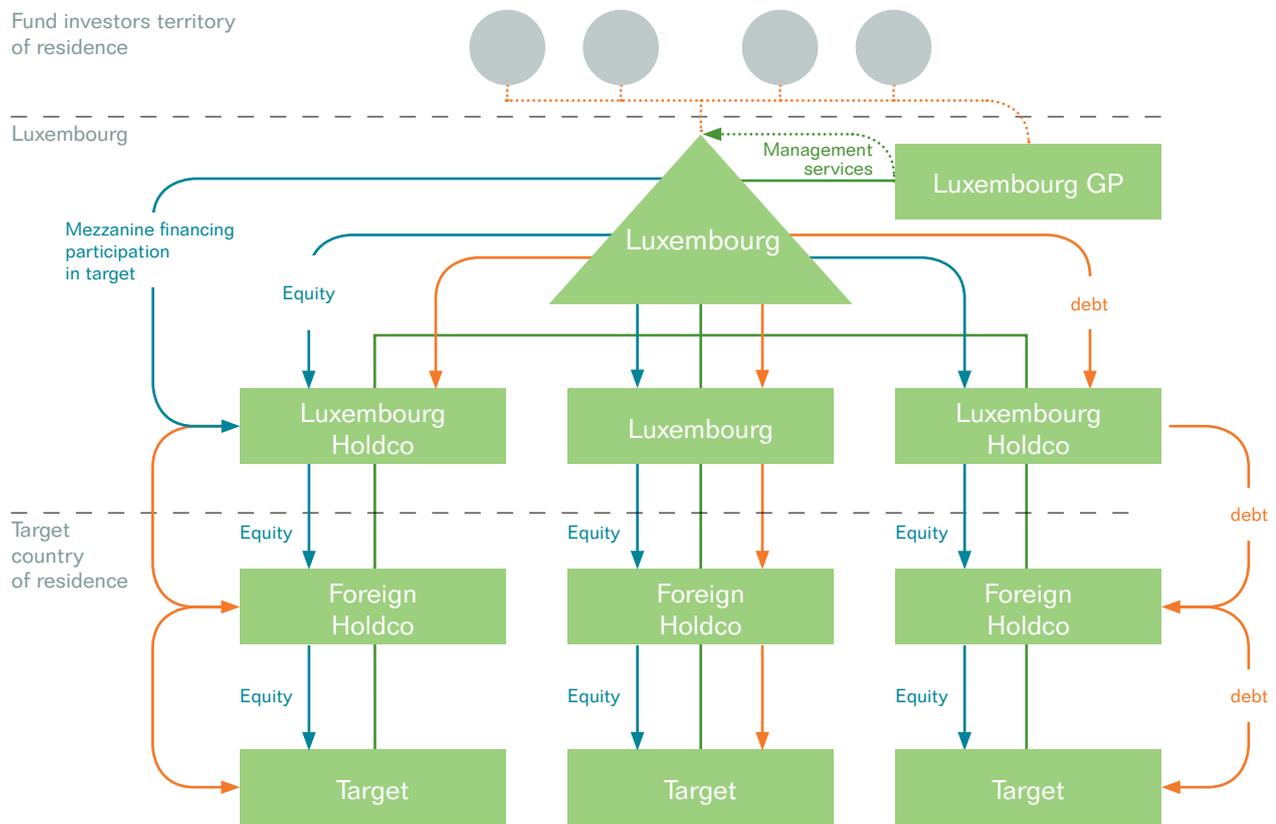

Example 2: investment via Luxembourg an S.C.Sp. and a SOPARFI

Example 3: investment via Luxembourg S.C.Sp. and a SOPARFI, SICAR, EuVECA, RAIF or SIF with a Luxembourg General Partner

Example 4: investment via foreign feeder entities into Luxembourg S.C.Sp. and several Luxembourg SOPARFI

4. Luxembourg tax environment

One of the key factors in favour of private equity or venture capital operations in Luxembourg remains its favourable tax environment. A stable tax framework, a highly competitive social security system (for companies, employers and employees) and the lowest VAT rate in Europe greatly contribute

to making Luxembourg one of Europe's most attractive jurisdictions for private equity or venture capital operations and investments.

Of key importance remains, however, the double tax treaty network that Luxembourg has built up over many years.

Taxation of Luxembourg PE vehicles

The Luxembourg tax environment is extremely beneficial for private equity or venture capital investment vehicles, both regulated and unregulated.

■ The SOPARFI

As a regular company subject to normal corporate taxation and not subject to a specific regulatory regime, the SOPARFI benefits from Luxembourg's extensive network of double-taxation treaties and from the EU Parent-Subsidiary Directives. Despite being a fully taxable company, the SOPARFI allows for tailor-made structuring providing, under certain conditions, for a full exemption for dividends and capital gains upon exit.

■ The SICAR

SICARs can be created using different corporate forms.

The SICAR, organised in the form of an S.C.S. or S.C.Sp, is tax transparent and thus not subject to corporate, municipal business and net wealth tax. Income and gains received or realised are thus not subject to tax in the hands of the SICAR. Income and gains may furthermore be paid to investors without any Luxembourg source taxation.

- SICARs in the corporate form organised as an S.A. or an S.C.A., are fully taxable companies. The income from transferable securities is however exempt under specific conditions. The SICAR in the corporate form will equally not be subject to net wealth tax. Dividend distributions are also not subject to any Luxembourg taxation at source.

■ The SIF

SIFs, irrespective of the legal form they take, are not subject to any Luxembourg taxes on capital gains or income. The sole tax due is a subscription tax of 0.01% based on the quarterly net asset value. Certain exemptions are available. SIFs in corporate form (e.g. SIFs organised as S.A. or S.C.A) can moreover claim access to certain double tax treaties.

■ The RAIF

In principle, RAIFs are subject to the same tax regime as SIFs (see above). However, optionally, RAIFs investing in risk capital can opt for the SICAR regime (see above). It is not possible to mix the different legal regimes for one RAIF,

Luxembourg's Double Tax Treaty Network

Luxembourg has bilateral tax treaties in force with all EU Member States (except Cyprus) and with a number of other countries (including almost all OECD Member States).

This network of tax treaties is constantly being expanded. SICARs and SOPARFIs as Luxembourg taxable companies, are, from a Luxembourg perspective, entitled to treaty benefits and therefore benefit from double tax

treaties concluded between Luxembourg and third countries. The application of tax treaties to SIFs and RAIFs taking the corporate form is to be assessed on a case-by-case basis depending on the wording of the treaty provisions and their interpretation by the relevant foreign authorities. Fiscally transparent SIFs and RAIFs themselves may generally not benefit from treaty provisions due to their tax transparency.

Highlights of Luxembourg Tax Framework for Private Equity and Venture Capital

- Effective carried interest structuring
- Extensive double tax treaty network
- Lowest VAT rate in the EU (17% currently), VAT exemption on management services rendered to RAIFs, SIFs and SICARs and free trade zone for valuable goods
- Competitive effective tax rates and low social security charges for individuals

4.1. Direct taxation of corporations

Luxembourg companies are subject to the following taxes:

- Income taxes at a combined rate of 27.08% in Luxembourg city in 2017, including municipal business tax. This rate will be lowered to 26.01 as from 2018.
- Annual net worth tax levied at a rate of 0.5% on the company's worldwide net worth on 1st January up to a value of EUR 500 million, and 0.05% on any amount in excess, subject to certain adjustments (eg. qualifying shareholdings). A minimum flat net worth tax of EUR 4,815 applies to most holding and financing companies which have a low or negative net worth.

Corporate income tax

Taxation for Luxembourg entities:

Corporate income tax applies to all tax resident corporations and to Luxembourg permanent establishments of foreign corporations.

Partnerships, other than those limited by shares (S.C.A.s), are regarded as tax transparent for Luxembourg tax purposes and are therefore not subject to corporate income tax and net worth tax at their own level. Income distributed by such entities will be considered, from a Luxembourg tax point of view, as flowing through the entity and are thus allocated directly to investors.

Resident taxpayers are liable to tax on their world-wide income, unless income is exempt under the provisions of applicable tax treaties or specific domestic tax law. There is a possibility of obtaining tax credits for foreign taxes paid.

Non-resident taxpayers are liable to tax on their Luxembourg-sourced income only, e.g. income realised by and allocable to a Luxembourg permanent establishment.

Thin capitalisation rules generally require a debt to equity ratio of 85:15 in the context of financing of participations or real estate. Following the example of other European countries, the Luxembourg direct tax authorities have clarified the tax treatment of Luxembourg group financing companies. Besides appropriate operational infrastructure, the relevant guidance provides that the equity of the financing company should be sufficient for the functions it performs, the assets used and the risks it assumes. No CFC rules exist in Luxembourg. It is however to be noted that such rules are to be introduced in the Luxembourg tax legislation by the end of 2018 for an application as from 2019 further to the transposition of the Council Directive (EU) 2016/1164 of 12 July 2016 laying down rules against tax avoidance practices that directly affect the functioning of the internal market.

Capital gains taxation for non-residents

If a non-resident shareholder is resident (for tax purposes) in a country that has a double tax treaty with Luxembourg, the treaty will generally allocate the right to tax to the country of residence of the relevant shareholder. In the event that no such double tax treaty exists or can be applied, capital gains on the sale of shares in a Luxembourg company are subject to tax in Luxembourg only if the non-resident shareholder has held a substantial interest in the Luxembourg company and the transfer occurs within 6 months of the

4. Luxembourg tax environment

acquisition or in the event of a transfer after 6 months, the non-resident individual shareholder has been a Luxembourg resident taxpayer for more than 15 years and has become a non-Luxembourg taxpayer less than 5 years before the disposal takes place.

For this purpose, a substantial interest exists if a shareholder, either alone or together with certain close relatives, has held a shareholding of more than 10% in a Luxembourg company at any time during the five year period preceding the transfer.

Municipal business tax

Municipal business tax varies from 6% to 12% (levied on income of businesses operating in Luxembourg), depending on the municipality where companies have their registered office. For companies operating in the city of Luxembourg, the rate is 6.75%. A deduction of EUR 17,500 applies to the municipal business tax base for entities liable to corporate income tax (EUR 40,000 for other businesses). Municipal business tax is cumulative with corporate tax and is non-deductible.

Net wealth tax

Net wealth tax is levied at a rate of 0.5% (or 0.05% when the net worth exceeds EUR 500 million) on the company's worldwide net worth on 1 January of each year. Qualifying shareholdings under the participation exemption regime net of allocable debt (allocable debt that exceeds the value of the shareholding is deductible against other assets) are excluded from the taxable base. Luxembourg corporate income tax is creditable to the net worth tax provided certain conditions are met.

Withholding taxes

A withholding tax of 15% is levied on dividend payments (17.65% if the dividend tax is not charged to the shareholder) unless an applicable tax treaty provides for a lower rate or the Luxembourg participation exemption regime reduces withholding tax to 0%. Liquidation

proceeds are not subject to withholding tax. Arm's length fixed or floating rate interest payments are generally not subject to withholding tax. Interest paid on certain profit sharing bonds and profit sharing interest paid on loans is subject to 15% withholding tax unless a lower tax treaty rate applies. Royalty payments are not subject to withholding tax provided they are not connected with non-resident artists' performances and sportsmen's activities in Luxembourg.

Automatic Exchange of information

On 28 March 2014, Luxembourg entered into an intergovernmental agreement ("Luxembourg IGA") with the United States of America with respect to the US Foreign Account Tax Compliance Act ("FATCA"), which was implemented into Luxembourg law by the law of 24 July 2015 ("FATCA Law"). Under the Luxembourg IGA and FATCA Law, Luxembourg financial institutions (including in certain cases SICARs, SIFs, RAIFs, EuVECAs or SOPARFIs) are required to provide certain information about their US account holders to the Luxembourg tax authorities, which will share that information with the Internal Revenue Service ("IRS") on an annual basis. Luxembourg financial institutions that do not comply with their FATCA obligations risk being subject to a 30% US withholding tax on their US source income in addition to local penalties.

Largely inspired by FATCA, the OECD has developed a global standard for the automatic exchange of financial account information, the Common Reporting Standard ("CRS"). The CRS has been implemented at European Union level through the Directive on Administrative Cooperation (Directive 2014/107/UE), transposed into Luxembourg law by the law of 18 December 2015 ("CRS Law"). Under the CRS Law, Luxembourg financial institutions (including in certain cases SICARs, SIFs, RAIFs, EuVECAs or SOPARFIs) are required to collect certain information about their account holders that are fiscally resident in a EU Member State or in a country with which Luxembourg has a tax information sharing

agreement, and to report this information to the Luxembourg tax authorities: The Luxembourg tax authorities will thereafter automatically exchange the information with the foreign tax authorities on an annual basis. Luxembourg financial institutions that do not comply with their CRS obligations may be subject to local penalties (no withholding tax penalty system).

Value Added Tax (VAT)

The Luxembourg VAT standard rate of 17% is the lowest in the EU, compared with an average of 21% in the other EU Member states. The Luxembourg VAT regime furthermore exempts from VAT management services provided to investments funds. Since July 2013, the exemption has been available for all alternative investment funds covered by the AIFM Law, including unregulated funds. This exemption is applicable on portfolio management, advisory services and administrative services. Due to this exemption and the low VAT rate, the VAT burden of SICARs, SIFs, RAIFs, EuVECAs and other alternative investment funds is very limited. This exemption is however not available to SOPARFIs unless they qualify as an AIF.

Assuming their activity is limited to the ownership of shares, SOPARFIs are not obliged to register for VAT except in the unlikely case they acquire goods from abroad. They cannot recover the VAT incurred on their costs.

Luxembourg has no “use and enjoyment” rule obliging, as in some Member States, holding companies, which are not VAT taxable persons, to self-assess the local VAT on services received from non EU service providers without allowing the deduction of this VAT.

A Freeport, operational since September 2014, in the vicinity of the Luxembourg airport, benefits from the VAT-free zone regime on transactions in valuable goods, including their storage. Certain types of investment funds (i.e. passion funds, investing into art and other collectibles) may take advantage of the Freeport.

Registration duty and transfer taxes

A fixed registration duty of EUR 75 is due upon incorporation and modification of the articles of incorporation of a Luxembourg company or upon transfer of the statutory seat or place of central administration of a company to Luxembourg.

Transfer taxes on the sale of local real estate amount to 7% or 10%.

Tax treatment of carried interest

In the AIFM, a regime for the taxation of carried interest from AIFs was also introduced.

The share of profits derived from an AIF and paid to AIFM employees is taxable as miscellaneous income, i.e. either as ordinary income (up to 45.78% for 2017), or as extraordinary income (up to 22.89% for 2017). However, if the employee satisfies certain conditions, the carried interest would be taxable at one quarter of the global tax rate.

The conditions to be fulfilled are:

- The recipient was neither resident in Luxembourg nor subject to Luxembourg tax on his/her professional income during the 5 preceding years;
- The recipient becomes Luxembourg tax resident;
- No advance payments were received by the recipient;
- The entitlement to carried interest is conditional on the investors having priority in recovering their initial investment.

The individual can benefit from this tax treatment for up to 10 years after having started his/her professional activity in Luxembourg.

The beneficial tax rates do not apply to capital gains realised on the sale of interests in the AIF, which are subject to standard capital gains rules.

4. Luxembourg tax environment

Implications of OECD BEPS project

In February 2013, the Organization for Economic Development (OECD) issued a report entitled “Addressing Base Erosion and Profit Shifting” (BEPS), followed by an action plan with 15 actions in July 2013 (Action Plan). The BEPS project is supported by the G20 and is not limited to OECD member countries only, but also includes a number of developing countries. The Action Plan is intended to prevent taxpayers operating internationally from shifting profits to low- or no-tax jurisdictions and thereby reducing their tax base. While BEPS was not aimed at the fund sector, many of the actions and recommendations will likely have an impact on private equity and venture capital funds and/or their portfolio companies. The recommendations include rules to deal with hybrid instruments and entities, a review of harmful tax practices of Member States and associated countries, a framework for mandatory spontaneous information exchange on tax rulings covering certain regimes, rules against treaty abuse as well as an update of transfer pricing rules for intangible assets. In addition, groups would be required to draw up a “country-by-country-report” that is to be made available to tax authorities and should allow tax authorities to get a more global view on a group’s worldwide operations, also functioning as a risk-assessment tool.

Many countries have started to consider or are already implementing some of the solutions

suggested by the OECD. Many of the recommendations are primarily targeted at multinationals seeking to minimise their tax burden, rather than through-bound investment and financing structures typically used by private equity. There may be an effect on the businesses into which private equity funds invest, however the primary areas, for example deduction of interest expense and transfer pricing, had already been the subject of focus by many of the key larger economies. It will therefore be important to regularly review existing structures to ensure they are not adversely affected by tax law changes implemented as a result of the BEPS project.

Transposition of the Anti-Tax Avoidance Directive:

The Council Directive (EU) 2016/1164 of 12 July 2016 laying down rules against tax avoidance practices that directly affect the functioning of the internal market will be transposed in the tax legislation of the EU Member States thus introducing new rules or modifying existing rules on limitation of deduction of interest expenses, exit taxation, general anti-avoidance, controlled foreign companies and hybrid instruments. Some of these rules will be applicable as from 2019. It is important to consider these new rules and anticipate their effects upon the implementation of new structures. Existing structures will also have to be reassessed in the light of the upcoming modifications to be brought in the EU Member States tax laws.

4.2. Miscellaneous charges and fees **Chamber of Commerce Fee**

All Luxembourg commercial companies are subject to an annual contribution (cotisation) ranging from 0.02% to 0.025% based on the relevant taxpayer's profit generated in the penultimate fiscal year before the relevant contribution generating year. This contribution is capped at EUR 3,000 for SOPARFIs, however the company in question must be coded with the correct NACE code in order to benefit from this cap.

CSSF Fees

Prudential oversight comes at a cost to the entities supervised:

Authorisation: EUR 3,500 for single-compartment structures and EUR 7,000 for multi-compartment structures.
Annual fee: for single-compartment structures EUR 3,000. In case of SIFs, for multi-compartment structures the charge varies according to the number of compartments:

- 1-5 compartments: EUR 6,000
- 6-20 compartments: EUR 12,000
- 21-50 compartments: EUR 20,000
- More than 50 compartments: EUR 30,000

The annual fee for SICARs is fixed at

- EUR 3,000 (single-compartment) and
- EUR 6,000 (multi-compartment).

A RAIF or a SOPARFI are not subject to any supervision by the CSSF and no CSSF fees apply.

4.3. Personal taxation

Luxembourg is one of the EU Member States with the most stable and rewarding tax framework and lowest security charges for individuals.

Social security

Social security contributions are computed on the annual gross remuneration capped at EUR 119,915.16. In 2017, self-employed persons are subject to social security contributions ranging from 24 to 27.42% (depending on the level of mutual insurance contribution, if any); the social security contributions are capped, i.e. they apply up to an annual gross remuneration of EUR 119,915.16 (at index 794.54).

In addition, employees and self-employed persons are subject to a 1.4% dependency contribution (*assurance dépendance*) assessed on their annual gross professional income (uncapped). This dependency contribution applies to all income (and not only to employment or self-employed income) in the hands of taxpayers who are subject to the Luxembourg mandatory State social security regime.

Income tax

Resident taxpayers are subject to income tax on their worldwide income. Non-resident taxpayers are only subject to income tax on Luxembourg-sourced income. Taxable income is assessed on the basis of total income less exemptions, deductible expenses and allowances. The law provides for many exemptions and deductions especially for families with children. Income tax is progressive with rates between 0% and a maximum 42% and is assessed on the basis of the taxpayers' family status. This tax rate is itself increased by an employment fund contribution of 7% or 9% (depending on the family status and level of income) resulting in a top maximum marginal rate of 45.78% (plus a 1.4% care insurance contribution).

In principle personal tax is assessed on the basis of an annual tax return that must be lodged by taxpayers. A withholding tax is levied on employment income (progressive withholding tax scale) and director's fees (20% flat withholding under conditions). Withholding taxes on employment income and director's fees are creditable against the taxpayer's final income tax liability.

4. Luxembourg tax environment

A special regime for highly skilled workers (“HSWs”), who are seconded to a Luxembourg undertaking belonging to an international group or are recruited from abroad by a Luxembourg undertaking, has been applicable since 1 January 2011. This special regime consists - subject to certain conditions – of an exemption from Luxembourg personal income tax on certain expenses and allowances paid to or on behalf of HSWs due to their expatriation. However these expenses and allowances remain tax deductible costs for the Luxembourg undertaking.

Net wealth tax

There is no net wealth tax for individuals.

Inheritance/Gift tax

Inheritance tax is due on the value of all property inherited from a Luxembourg resident whereas transfer tax is due on the value of real property located in Luxembourg that is inherited from a non-resident.

Where the heir is a direct descendant or a spouse with children, there is in principle no inheritance tax liability.

Gift tax rates vary according to the degree of kinship between the donor and the donee, ranging from 1.8% to 14.4%.

Summary of tax-related features:

- Attractive effective tax rates;
- Broad participation exemption regime;
- Significant exemptions from withholding tax on dividends;
- No withholding tax on interest, royalties and liquidation proceeds;
- No capital/stamp duties on the sale of shares in a Luxembourg company;
- Use of international exchange of information standards;
- Extensive double tax treaty network;
- Transfer pricing and thin capitalization adhering to international standards;
- Advance tax clearance;
- Specific tax regimes for investment funds, securitisation activities, risk capital and reinsurance;
- Competitive personal income tax regime and low social security contributions for employers and employees.

5. Accounting framework for Luxembourg private equity and venture capital vehicles

5.1. Accounting Standards and audit requirements

Luxembourg vehicles may choose to adopt Luxembourg Generally Accepted Accounting Principles (“Lux GAAP”) or International Financial Reporting Standards (“IFRS”) as adopted by the EU. In addition, with the specific approval from the local Accounting Standards Board, a company may use any alternative internationally accepted accounting framework such as US GAAP.

Limited Partnerships (both S.C.S., whose annual turnover do not exceed EUR 100,000 ex-VAT and whose partners with unlimited liability are not all limited liability companies, and S.C.Sp.) are allowed to apply any accounting principles as described in their Limited Partnership Agreement (“LPA”) and will therefore be allowed to use Lux GAAP, IFRS, UK GAAP, US GAAP or “Other GAAP”.

Other unregulated vehicles (S.à r.l., S.A., S.C.A.) are subject to the requirements of the 1915 Law and therefore are required to prepare their annual accounts in compliance with Lux GAAP or IFRS. A derogation can be granted in special cases, as ruled by Art. 27 of the Law of 19 December 2002, as amended.”

In practice, the standalone annual accounts of Luxembourg private equity and venture capital vehicles are very frequently prepared in accordance with Lux GAAP whereas consolidated annual accounts (whether legally

required – see below – or contractually required – for example as a consequence of raising external financing) are frequently prepared under IFRS as adopted by the EU. Through its international exposure, Luxembourg service providers have significant experience in the application of IFRS.

Note that while most companies are required to prepare annual accounts there are specific size thresholds that will determine if an audit by an approved statutory auditor (*Revéiseur d’entreprises agréé*) under International Standards on Auditing (“ISA”) is required by law.

The audit of the annual accounts is required for regulated vehicles, for the RAIF and in general when on balance sheet date the company exceeds the limits of two of the following three criteria, for two years in a row:

- balance sheet total: 4.4 million EUR
- net turnover: 8.8 million EUR
- average number of full-time staff employed during the financial year: 50

Since interest, dividend income and capital gain don’t qualify as turnover, in many cases no legal audit would be legally required for unregulated investment vehicles, though an audit might be required by the LPA.

5.2. Valuation Rules

Luxembourg accounting rules have always been a primarily historical cost prudence-focused framework permitting the booking of investments at cost less durable impairment with the recognition only of unrealised losses and not of unrealised gains in the profit and loss accounts of a company. With the introduction of the regulated vehicles (SIFs and SICARs), of the new limited partnership regime and with the harmonisation derived from recent EU accounting directives, the possibility of using fair value in the financial statements of Luxembourg companies has been introduced.

With regard to unregulated partnerships (S.C.S. and S.C.Sp.) the valuation policy has to be defined within the accounting policies determined in the LPA.

Companies adopting IFRS as an accounting framework have to apply valuation policies depending on the type of instruments being valued.

The Lux GAAP accounting framework allows a certain level of additional flexibility and possible choices as outlined in the table below:

Type of vehicle/ Regulatory framework		Valuation under Lux GAAP
SIF (CSSF regulated)		SIFs are required to account for investments at fair value unless their constitutional documents specify otherwise. Usually the prospectus of the fund includes detailed explanations with regard to the valuation methodologies adopted.
SICAR (CSSF regulated)		SICARs are obliged to account for their investments at fair value.
RAIF (indirectly supervised via its AIFM)		RAIFs are required to account for investments at fair value unless their constitutional documents specify otherwise. Usually the prospectus of the fund includes detailed explanations with regard to the valuation methodologies adopted.
SOPARFI (unregulated)	Limited Partnerships (S.C.S. and S.C.Sp.)	The valuation rules to follow can be freely determined in the partnership agreement. In practice, these rules will follow internationally recognised principles for determining fair value and methodologies
	Other unregulated vehicles (S.à r.l., S.A., S.C.A.)	Valuation rules are governed by the Law of 19 December 2002, as amended. There are two valuation options: a) Acquisition cost decreased by any durable impairment b) Fair Value (the so called “fair value option”). The choice of which method to use is determined by the management of the company.

The most widely accepted valuation methods are the ones set forth by the International Accounting Standard Board (IFRS13), by

Invest Europe or by the International Private Equity and Venture Capital board (IPEV).

5.3. Consolidation

5.3.1. Regulated and indirectly supervised vehicles

The SICAR, the SIF and the RAIF are specifically exempted by law from the consolidation requirement.

5.3.2. Unregulated Vehicles

The Luxembourg law requires that limited liability companies, as well as the S.C.S. (in the case in which its unlimited liability partners are set up as limited liability companies), that control another company prepare and publish consolidated financial statements. S.C.Sp. are not required to draft consolidated financial statements. When consolidated financial statements are required, most companies opt for their preparation to be done in Luxembourg, either internally or through specialised service providers.

Consolidation exemptions are foreseen in the following cases:

■ Exemptions

1. The private equity and venture capital consolidated exemption (Art 317 of the 1915 Law):

In December 2009, the Luxembourg Ministry of Justice, through the Accounting Standards Board, issued a recommendation relating to the “subsequent resale” exclusion that allows private equity companies (for which all their subsidiaries are held for subsequent resale) not to present consolidated financial statements if six conditions are fulfilled:

- a) The company is subject to the 1915 Law and is held by one or more well-informed investor(s);
- b) The company’s exclusive corporate object is to invest in risk capital, which is defined as direct or indirect contribution of funds to

- one or several entities in view of their launch, development or their listing on a stock exchange. These investments are held with the intention to sell them at a profit;
- c) An ex-ante exit strategy has been formally defined and documented in writing, communicated to investors, and it is part of the investment policy, implying the intention to divest on a mid-term basis (generally 3 to 8 years);
 - d) The company's objective is to provide its investors with the benefit of the results of the management of its investments in return for the risk which they incur;
 - e) If the investments are not carried at fair value on the face of the balance sheet, the fair value is disclosed in the notes to the financial statements;
 - f) Any event, guarantee or uncertainty that might have a significant impact on the entity's ability to continue as a going concern, on its cash-flow situation, on its available liquidities or on its solvency has to be disclosed adequately in the notes to the annual accounts.

2. Sub-group exemption (Art 314 of the 1915 Law): Any parent company which is also a subsidiary undertaking is exempted from the obligation to draw up consolidated accounts and a consolidated annual report if its parent undertaking is governed by the law of a Member State of the EU. This exemption is not applicable if the Luxembourg parent company has its securities (shares and/or bonds) listed on an EU regulated market.

3. Threshold exemption (Art 313 of the 1915 Law): Consolidation is not required for parent companies of groups which do not exceed, on a consolidated basis, the limits of two of the three following criteria:

- balance sheet total: 20 million EUR
- net turnover: EUR 40 million EUR
- average number of full-time staff employed during the financial year: 250.

The "threshold exemption" is not applicable in case the relevant company has its securities (shares and/or bonds) listed on an EU regulated market.

4. Financial Holding exemption: no consolidation is required if the parent company has not intervened in the management of the subsidiary, has not exercised its voting rights in respect of the appointment of the management within the current and the last 5 years, has not granted loans to the subsidiary and, if the conditions were met, has received an exemption granted by the Luxembourg authorities. This exemption is quite rare in practice.

■ Exclusion of specific investments

Specific investments may be excluded from the consolidation requirement if they meet one of five possible exclusions as set out by the 1915 Law.

These are: immateriality, severe restrictions or disproportionate costs on obtaining financial information, subsequent resale or diverging activities.

However, in these cases, the consolidated accounts will still have to be published in Luxembourg according to the local requirements.

■ IFRS Exemption from Consolidation

Under IFRS 10, an entity is exempted from consolidating its subsidiaries if it qualifies as an "investment entity".

An investment entity is defined as an entity that:

- Obtains funds from one or more investors for the purpose of providing those investor(s) with investment management services;
- Commits to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both and;
- Measures and evaluates the performance of substantially all of its investments on a fair value basis.

An investment entity is required to account for its investments at fair value through profit or loss.

5.4. Distributions

Profit repatriation is a key element to be considered upon the implementation of a private equity structure. The definition of the final structure will depend on the selection of

the adequate type of structure (regulated/ non-regulated) and the adequate types of financial instruments respectively at investment and investors' level.

SIF (CSSF regulated)	SICAR (CSSF regulated)	RAIF (indirectly supervised via its AIFM)	SOPARFI (unregulated)	
			Limited partnerships (S.C.S – S.C.Sp.)	Other unregulated vehicles (S.à r.l., S.A., S.C.A.)
Distributions to investors (*) are not subject to specific restrictions except for the compliance with minimum capital requirements and limitations provided for in the constitutional documents.	Distributions to investors are not subject to specific restrictions except for the compliance with minimum capital requirements and limitations provided for in the constitutional documents.	Distribution to investors are not subject to specific restrictions except for the compliance with minimum capital requirements and limitations provided for in the constitutional documents.	Distributions to investors, as well as the conditions under which the S.C.S. and the S.C.Sp. may request their restitution, are subject to the LPA. Unless the LPA provides otherwise, each members' share in the partnership's gains and losses is proportional to its interests.	Distribution of dividends are subject to the requirements of the 1915 Law.
Distributions, whether paid to resident or non-resident investors, are not subject to withholding tax in Luxembourg.	Distributions, whether paid to resident or non-resident investors, are not subject to withholding tax in Luxembourg.	Distributions, whether paid to resident or non-resident investors, are not subject to withholding tax in Luxembourg.	The applicable regime provides for full tax neutrality and tax transparency, subject to certain conditions: - the GPs of the S.C.S./S.C.Sp. taking the form of a Luxembourg limited company should hold - less than 5% of interest in the S.C.S./S.C.Sp. Moreover, the activity of the S.C.S. and S.C.Sp. should be limited to private wealth management.	Except for specific situations, no withholding tax should apply to liquidation proceeds or interest payments. Dividend payments are subject to 15% withholding tax (exemptions are available under certain conditions).

(*) For vehicles with variable capital, the Luxembourg manager should pay attention to the qualification of distributions between return of capital and income. This analysis should take into account the specific tax situation of the investors in the various countries in which they are tax residents.

ALFI cannot be held responsible for any errors or omissions or for the results obtained from the use of the information contained in this brochure. Interested parties should seek the advice of qualified professionals before making any decision as to the most appropriate Luxembourg private equity or venture capital structure.

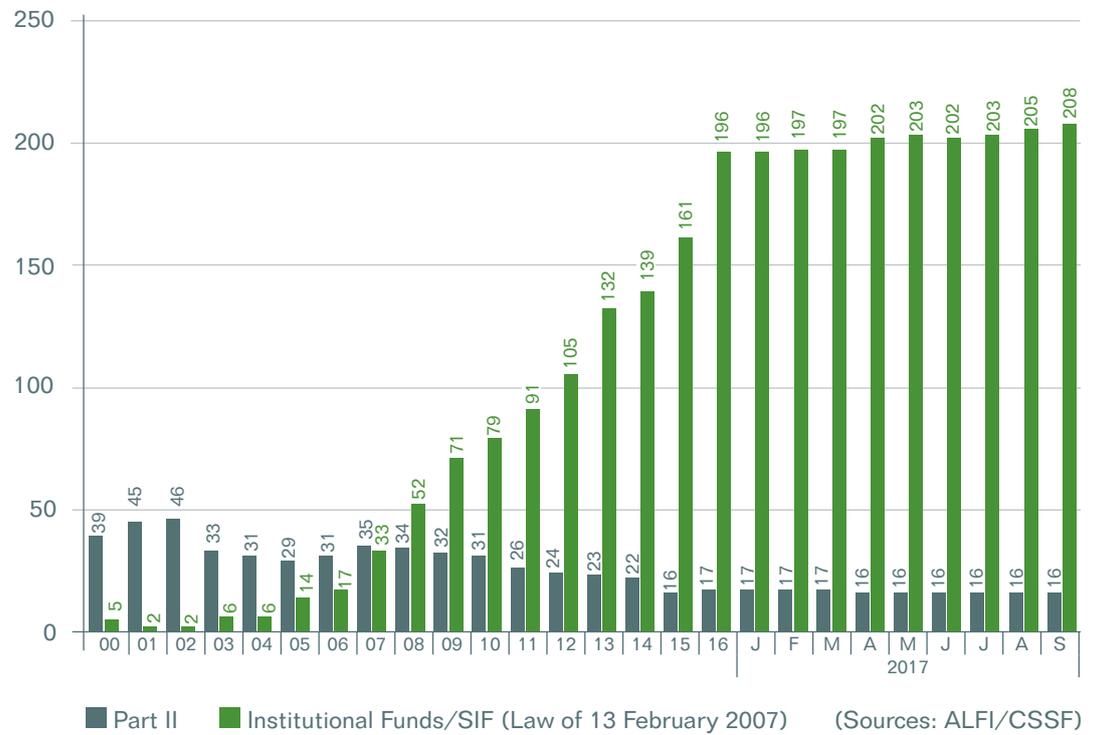

Appendix I – comparative table of legal structures

The following tables provide a comparison of the main features of the most popular corporate forms:

	Public limited company (S.A.)	Simplified limited company (S.A.S)	Private limited company (S.à.r.l.)	Corporate partnership limited by shares (S.C.A.)	Common/special Limited partnership (S.C.S./S.C.Sp.)
Incorporation	Notarial deed required	Notarial deed required	Notarial deed required	Notarial deed required	Notarial deed not required
Minimum capitalisation (at incorporation/ launching) (EUR or equivalent in another currency)	EUR 30,000	EUR 30,000	EUR 12,000	EUR 30,000	No capital required
Shares/interests/ beneficiary units/capital accounts	Dematerialised, registered or bearer, voting or non-voting shares, beneficiary units (with or without voting rights)	Dematerialised, registered or bearer, voting or non-voting shares, beneficiary units (with or without voting rights)	Registered shares only, beneficiary units (with or without voting rights)	Dematerialised, registered or bearer, voting or non-voting shares, beneficiary units (with or without voting rights)	Registered partnership interests only or capital accounts
"Tracking shares"	Yes	Yes	Yes	Yes	Yes (subject to terms of the partnership agreement)
Share Classes	Yes	Yes	Yes	Yes	Yes
Shareholders	≥1	≥1	1 to 100	Limited partners: ≥ 1 Unlimited partners: ≥ 1	Limited partners: ≥ 1 Unlimited partners: ≥ 1
Transfer of shares/ interests	Free, subject to restrictions set out in articles of incorporation	Free, subject to restrictions set out in articles of incorporation	Subject to certain conditions being shareholders' prior consent	Shares of limited partners freely transferable – shares of unlimited partners transferable subject to certain conditions	Freely determined by the partnership agreement
Liabilities	Shareholders' liability is limited to the amount of their participation	Shareholders' liability is limited to the amount of their participation	Shareholders' liability is limited to the amount of their participation	Limited partners' liabilities: Limited to the amount of their participation Managing general partner(s)' liability: Unlimited	Limited partners' liabilities: Limited to the amount of their participation Managing general partner(s)' liability: Unlimited
Listing of shares	Yes	No	No	Yes	No

	Public limited company (S.A.)	Simplified limited company (S.A.S)	Private limited company (S.à.r.l.)	Corporate partnership limited by shares (S.C.A.)	Common/special Limited partnership (S.C.S./S.C.Sp.)
General meeting	1 annual general meeting required	Modalities freely set in the articles of incorporation	1 annual general meeting required if the number of members/ partners is ≥ 60	1 annual general meeting required	Modalities freely set in the partnership agreement
Management	One-tier management structure with a board of ≥ 3 directors (if there is more than one shareholder) or two-tier management structure with a management board and a supervisory board Possibility to put in place an executive committee or a chief executive, a daily manager, ad hoc committee	Managed by a chairman (president) possibility to delegate the chairman's powers to one or more officers (directors)	≥ 1 manager If several managers, may be structured as a board, possibility to put in place a daily manager, ad hoc committee	≥ 1 manager which does not have to be an unlimited partner	≥ 1 manager which does not have to be an unlimited partner
Amendments to constitutive documents	By a quorum representing at least 1/2 of the share capital at first call and a 2/3 majority of shareholders	Quorum and majority freely set in the articles of incorporation	By a majority of the shareholders representing at least 3/4 of the share capital	Same as the S.A., but the unlimited partner has a veto right (unless contrary provision in the articles of incorporation)	By all the partners, unless otherwise provided in the partnership agreement
Accounts	Annual	Annual	Annual	Annual	Limited accounting obligation
Statutory auditor	Required	Required	Required only if the number of partners is ≥ 60	Required only for large companies (see section 5.1 of this brochure)	Required only for large companies (see section 5.1 of this brochure)
Independent auditor's report	Required if certain size thresholds are exceeded	Required if certain size thresholds are exceeded	Required if certain size thresholds are exceeded	Required if certain size thresholds are exceeded	Required if certain size thresholds are exceeded

Number of Luxembourg Private Equity and venture capital units (excluded SICARs)

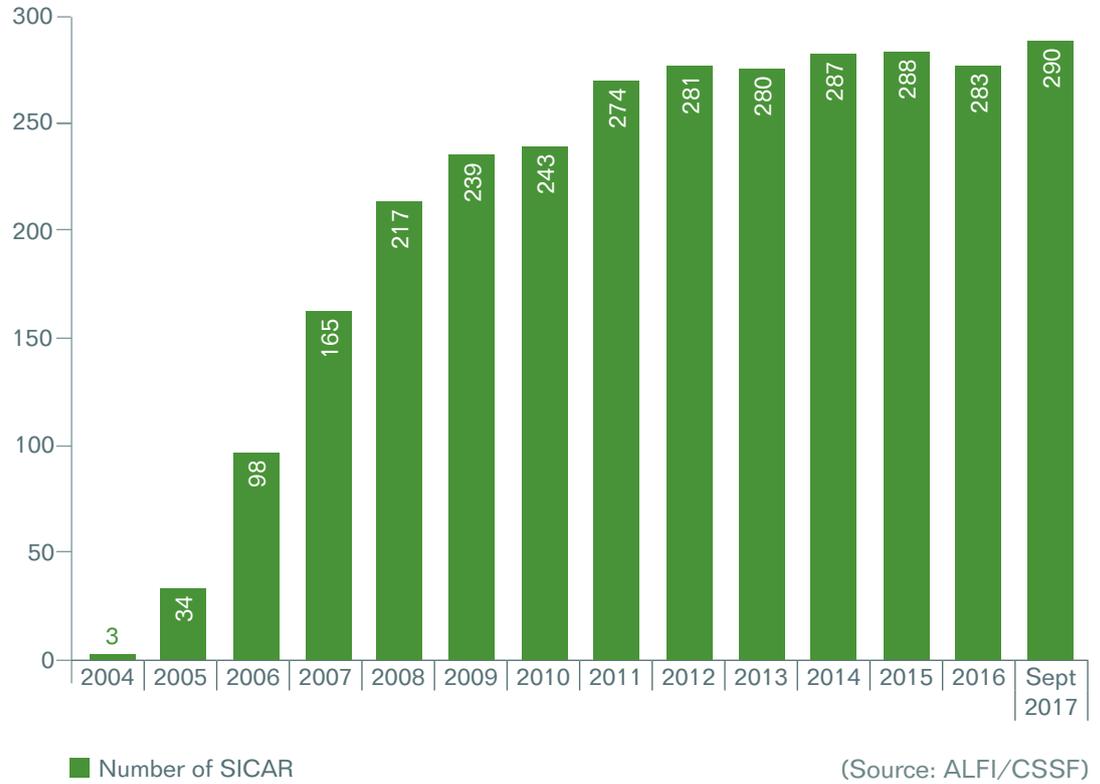

Number of Luxembourg Private Equity and venture capital units (included SICARs)

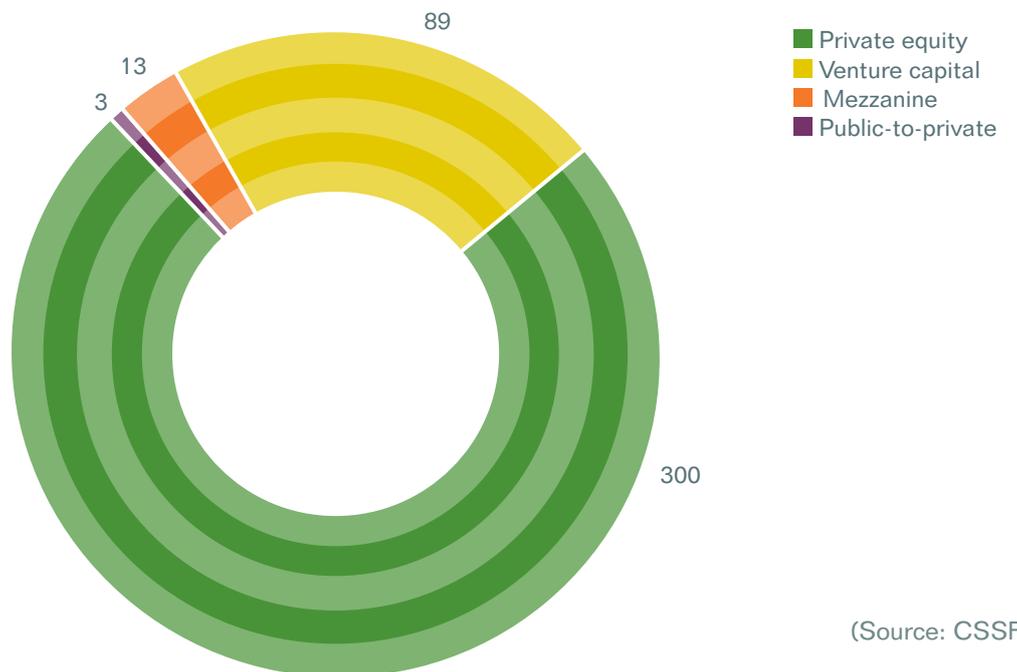

For the regulated SICAR, EuVECA and SIF, which will be described in further detail in section 4, the following figures have been published by the Luxembourg supervisory authority of the financial sector, the CSSF.

SICAR and EuVECA

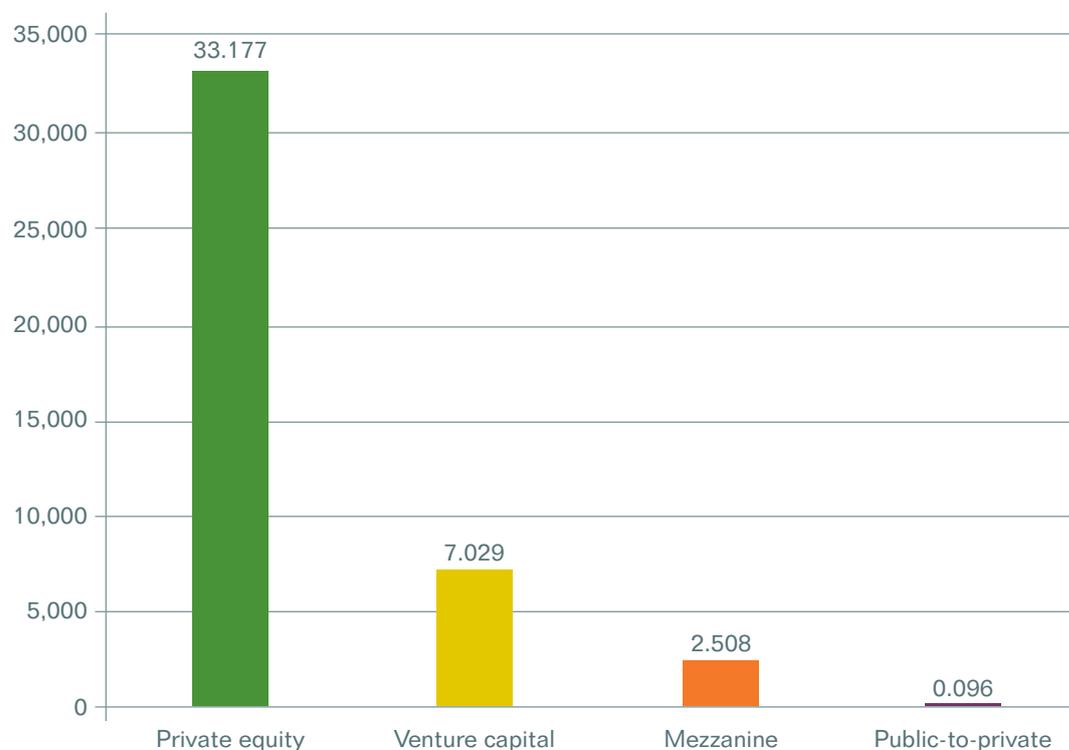

Investment policy of Luxembourg SICAR units in 2016 (by number of SICAR units)

Breakdown of SICAR net assets by investment policy

(in million EUR)

(Source: CSSF)

Geographical origin of SICAR initiators

Country/region	As % of total
France	26.6%
Switzerland	18.3%
Luxembourg	10.8%
Germany	8.6%
Spain	5.0%
UK	3.3%
Belgium	2.8%
Italy	1.9%
US	1.9%
Portugal	1.4%
Other	19.4%
Total	100%

Appendix III – glossary

AIF	Alternative Investment Fund as defined in the AIFMD Law
AIFMD	Directive 2011/61/EU of the European Parliament and of the Council of 8 June 2011 on Alternative Investment Fund Managers and amending Directives 2003/41/EC and 2009/65/EC and Regulations (EC) No 1060/2009 and (EU) No 1095/2010
AIFM Law	The Law of 12 July 2013 implementing Directive 2011/61/EU into Luxembourg law, as amended
Capital Call	Written notice to Limited Partners requesting them to make a capital contribution to the fund vehicle (within the limits of their subscription commitment) in order to permit the fund vehicle to pay for its investments or to pay expenses
Carried Interest	Carried interest or carry is a share of the profits of the fund vehicle that is paid to the general partner and/or the investment manager/ advisor in excess of the amount that the general partner/manager/ advisor contributes to the fund vehicle. In order to receive carried interest, the fund vehicle must first return all capital contributed by the investors, and, in certain cases, the fund must also return a previously agreed-upon rate of return (the “hurdle rate” or “preferred return”) to investors
CSSF	<i>Commission de Surveillance du Secteur Financier</i> , the Luxembourg supervisory authority of the financial services sector
EuVECA	European Venture Capital fund or manager, governed by Regulation (EU) No. 345/2013 on European venture capital funds
FCP	<i>Fonds Commun de Placement</i> , an undivided co-ownership of assets or proprietorship managed by a management company
GP	The general partner of either a corporate partnership limited by shares (S.C.A.), a common limited partnership (S.C.S.) or a special limited partnership (S.C.Sp.). The managing general partner is normally jointly and severally liable with the partnership for any liabilities which may not be satisfied out of partnership assets
IFRS	International Financial Reporting Standards
1915 Law	Law of 10 August 1915 on commercial companies, as amended
LP	The limited partner, typically an investor or limited shareholder in a fund vehicle; limited partners enjoy limited liability (i.e., up to the amount invested or committed for investment)
LPEA	Luxembourg Private Equity & Venture Capital Association
Lux GAAP	Luxembourg Generally Accepted Accounting Principles, most frequently used accounting framework in Luxembourg for PE vehicles
PSF	<i>Professionnel du Secteur Financier</i> , a professional of the financial services sector; each PSF is subject to the prior authorisation and ongoing prudential supervision by the CSSF
RAIF	Reserved Alternative Investment Fund, a collective investment scheme governed by the law of 23 July 2016 on reserved alternative investment funds
RCS	<i>Registre de Commerce et des Sociétés</i> , the Luxembourg register of commerce and companies
S.A.	<i>Société Anonyme</i> ; Public limited liability company
S.à r.l.	<i>Société à Responsabilité Limitée</i> ; private limited liability company
S.A.S.	<i>Société par Actions Simplifiée</i> ; simplified limited company
S.C.A.	<i>Société en Commandite par Actions</i> ; corporate partnership limited by shares

S.C.S./C.L.P.	<i>Société en Commandite Simple</i> ; common limited partnership
S.C.Sp.	<i>Société en Commandite Spéciale</i> , special limited partnership without legal personality introduced into Luxembourg law by the AIFMD Law
SICAR	<i>Société d'Investissement en Capital à Risque</i> , investment company investing in risk capital only
SICAV	<i>Société d'Investissement à Capital Variable</i> ; investment company with variable capital
SIF	Specialized Investment Fund, a collective investment scheme governed by the law of 13 February 2007 on specialised investment funds, as amended
SOPARFI	<i>Société de Participation Financière</i> , a mere marketing acronym used to designate an ordinary commercial company governed by the 1915 Law and which is used as a vehicle for holding participations in Luxembourg or foreign companies or other instruments
Subscription Tax	Also: <i>Taxe d'Abonnement</i> ; a tax of 1 basis point assessed on the net asset value and payable by certain collective investment schemes only
UCI	Undertakings for Collective Investments; collective investment schemes governed by the law of 17 December 2010 relating to undertakings for collective investment, as amended
UCITS	Undertaking for Collective Investments in Transferable Securities; collective investment schemes organized in accordance with Directive 2009/65/EC of the European Parliament and Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS)
VAT	Value Added Tax
Well-informed Investor	<p>For SICAR and SIF:</p> <p>Institutional investor, professional investor or any other investor who meets the following conditions:</p> <ol style="list-style-type: none"> a) investor has confirmed in writing that he adheres to the status of well-informed investor, and b) (i) investor invests a minimum of EUR 125,000 in the SIF, or (ii) investor has been the subject of an assessment made by a credit institution within the meaning of Directive 2006/48/EC, by an investment firm within the meaning of Directive 2004/39/EC or by a management company within the meaning of Directive 2009/65/EC certifying investor's expertise, experience and knowledge in adequately appraising an investment in the SIF. <p>For RAIF:</p> <p>Institutional investor, professional investor or any other investor who meets the following conditions:</p> <ol style="list-style-type: none"> a) investor has confirmed in writing that he adheres to the status of well-informed investor, and b) (i) investor invests a minimum of EUR 125,000 in the RAIF, or (ii) investor has been the subject of an assessment made by a credit institution within the meaning of Regulation (EU) No. 575/2013, by an investment firm within the meaning of Directive 2004/39/EC, by a management company within the meaning of Directive 2009/65/EC or by an authorised alternative investment fund manager within the meaning of Directive 2011/61/EU certifying investor's expertise, experience and knowledge in adequately appraising an investment in the RAIF.

The Association of the Luxembourg Fund Industry (ALFI), the representative body for the Luxembourg investment fund community, was founded in 1988. Today it represents more than 1 500 Luxembourg-domiciled investment funds, asset management companies and a wide variety of service providers including depository banks, fund administrators, transfer agents, distributors, law firms, consultants, tax advisers, auditors and accountants, specialist IT providers and communications agencies.

Luxembourg is the largest fund domicile in Europe and its investment fund industry is a worldwide leader in cross-border fund distribution. Luxembourg-domiciled investment structures are distributed in more than 70 countries around the globe, with a particular focus on Europe, Asia, Latin America and the Middle East.

ALFI defines its mission as to “Lead industry efforts to make Luxembourg the most attractive international centre”.

Its main objectives are to:

Help members capitalise on industry trends

ALFI’s many technical committees and working groups constantly review and analyse developments worldwide, as well as legal and regulatory changes in Luxembourg, the EU and beyond, to identify threats and opportunities for the Luxembourg fund industry.

Shape regulation

An up-to-date, innovative legal and fiscal environment is critical to defend and improve Luxembourg’s competitive position as a centre for the domiciliation, administration and distribution of investment funds. Strong relationships with regulatory authorities, the government and the legislative body enable ALFI to make an effective contribution to decision-making through relevant input for changes to the regulatory framework, implementation of European directives and regulation of new products or services.

Foster dedication to professional standards, integrity and quality

Investor trust is essential for success in collective investment services and ALFI thus does all it can to promote high professional standards, quality products and services, and integrity. Action in this area includes organising training at all levels, defining codes of conduct, transparency and good corporate governance, and supporting initiatives to combat money laundering.

Promote the Luxembourg investment fund industry

ALFI actively promotes the Luxembourg investment fund industry, its products and its services. It represents the sector in financial and in economic missions organised by the Luxembourg government around the world and takes an active part in meetings of the global fund industry.

ALFI is an active member of the European Fund and Asset Management Association, of the European Federation for Retirement and of the International Investment Funds Association.

To keep up to date with all the news from the association and the fund industry in Luxembourg, join us on [LinkedIn](#) (The Luxembourg Fund Industry Group by ALFI), [Twitter](#) (@ALFI-funds), [Youtube](#), [Vimeo](#) or visit our website at www.alfi.lu.
