

The Association of the Luxembourg Fund Industry (ALFI), the representative body for the Luxembourg investment fund community, represents over 1,400 Luxembourg-domiciled investment funds, asset management companies and a wide variety of service providers.

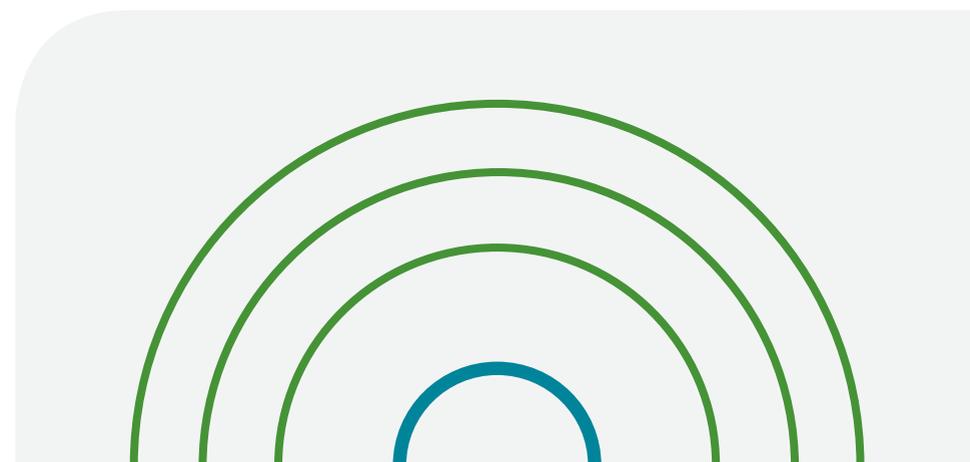

Luxembourg is the largest fund domicile in Europe, the second largest fund centre in the world after the US and its investment fund industry is a worldwide leader in cross-border fund distribution. Luxembourg-domiciled investment structures are distributed in more than 70 countries around the globe.

ALFI in 2017

- Close to 6,000 fund professionals registered for 9 ALFI international roadshows and seminars held in 13 cities on 3 continents
- More than 4,500 people registered for 16 ALFI conferences and seminars in Luxembourg
- 21 position papers and comments on legislative and regulatory proposals have been issued by ALFI
- 13 press releases and 19 new or updated technical brochures have been published
- Over 1,800 members participated in 152 ALFI technical committees and working groups

Initially created in 1988 as an association of Luxembourg domiciled investment funds, ALFI enlarged its membership in 2000 to include a large variety of service providers representing the entire value chain of the investment fund business. This broad membership base gives ALFI both a degree of representativeness and a diversity of thought leadership that are unparalleled.

ALFI advances the interests of investment funds, their shareholders, directors and service providers and fosters dedication to high professional and ethical values, integrity and quality.

Through its numerous working groups, ALFI offers its members a platform for discussions on key industry issues, for defining common standards and for developing best practice recommendations.

Via the representative office in Brussels, ALFI engages closely with European policymakers to provide important industry feedback on initiatives that impact the asset management and investment fund sector.

ALFI's representative office in Hong Kong strongly supports the Association in promoting the Luxembourg fund centre's products and

services in Asia and engages with local regulators with the aim to ensure open access to this highly important market for Luxembourg domiciled funds. Regular visits by ALFI members to other parts of the world successfully pursue the same objective.

Furthermore, ALFI promotes the public's understanding of investment funds and their role in the economy.

Last but not least, ALFI serves as a spokesperson for the Luxembourg fund industry with the local and global media.
